SEC. 124. POLICY TOWARD THE PEOPLE'S REPUBLIC OF CHINA.

(a) FINDINGS AND POLICY.—

(1) FINDINGS.—The Congress finds that—

(A) the United States and the group known as the Coordinating Committee have granted special licensing preferences in favor of exports to the People's Republic of China compared to other controlled countries under the Export Administration Act of 1979, based upon a consensus that the People's Republic of China posed a reduced national security threat;

(B) the United States policy of differentiating the People's Republic of China from other controlled countries was also intended to encourage emerging democratization and economic reform in that country; and

(C) the assumptions underlying past policy must be reevaluated in light of massive abuses of human rights by the Government of the People's Republic of China and evidence that the Chinese Government has assisted in the proliferation of missiles and nuclear technology to politically volatile areas of the world.

(2) POLICY.—It is therefore the policy of the United States that export licensing preferences for the People's Republic of China should be eliminated, applications for distribution licenses and comprehensive operations licenses under section 4(a)(2) of the Export Administration Act of 1979 should be denied, and access to dual-use goods and technology representing proliferation concerns should be restricted.

(b) ACTION TO LIBERALIZE TREATMENT.—Section 5(b) (50 U.S.C. App. 2404(b)), as amended by the preceding provisions of this Act, is further amended by adding at the end the following:

"(5) If the President determines that licensing treatment for the People's Republic of China should be liberalized compared to other controlled countries, no action to so liberalize such treatment should be taken until 30 days after the President reports such determination to the Congress stating the justification for the change in policy.".

(c) PROLIFERATION CONCERNS REGARDING THE PEOPLE'S REPUBLIC OF CHINA.—Section 6 (50 U.S.C. App. 2405), is amended by adding at the end the following:

"(t) PROLIFERATION CONCERNS REGARDING THE PEOPLE'S REPUBLIC OF CHINA.—(1) Requests for authority or permission to export goods or technology to the People's Republic of China which are controlled under this section, pursuant to multilateral arrangements to control proliferation of chemical weapons and missile technology, should be denied in the absence of adequate assurances regarding appropriate end use and nontransfer of goods or technology to a country or project of concern.

"(2) In order to discourage proliferation, by the People's Republic of China, that is described in paragraph (1), the Secretary of State should seek the cooperation of other governments involved in multilateral control arrangements to restrict exports of goods and technology described in paragraph (1), in harmonizing treatment of exports to the People's Republic of China with control efforts of the United States.

"(3) The policy set forth in paragraph (1) shall remain in effect unless the President determines and reports to the Congress that the People's Republic of China has ceased to act in a manner inconsistent with multilateral efforts to control proliferation of chemical weapons and missile technology.".

(b) APPLICABILITY.—The prohibition contained in subsection (a) does not apply to projects referenced in House Document Number 102–385 that were certified by the President before the date of the enactment of this section. Such prohibition may be waived in any other case by the President upon certification by the United States Trade Representative that the People's Republic of China is, with regard to the respective satellite, components, or technology related thereto for which the export license request is pending, in full compliance with the Memorandum of Agreement Between the Government of the United States of America and the Government of the People's Republic of China Regarding International Trade in Commercial Launch Services.

SEC. 321. IMPOSITION OF SANCTIONS.

(a) DETERMINATION BY THE PRESIDENT.—

(1) In General.—Except as provided in subsection (b)(2), the President shall impose the applicable sanctions described in subsection (c) if the President determines that a foreign person or a United States person, on or after the effective date of this subtitle, has materially and with requisite knowledge contributed—

(A) through the export from the United States of any goods or technology that are subject to the jurisdiction of the United States, or

(B) through the export from any other country of any goods or technology that would be, if they were exported from the United States, subject to the jurisdiction of the United States,

to the efforts by any individual, group, or non-nuclear-weapon state to acquire unsafeguarded special nuclear material or to use, develop, produce, stockpile, or otherwise acquire any nuclear explosive device.

(2) Persons Against Which Sanctions Are To Be Imposed.—Sanctions shall be imposed pursuant to paragraph (1) on—

(A) the foreign person or United States person with respect to which the President makes the determination described in that paragraph;

(B) any successor entity to that foreign person or United States person;

(C) any foreign person or United States person that is a parent or subsidiary of that person if that parent or subsidiary materially and with requisite knowledge assisted in the activities which were the basis of that determination; and

(D) any foreign person or United States person that is an affiliate of that person if that affiliate materially and with requisite knowledge assisted in the activities which were the basis of that determination and if that affiliate is controlled in fact by that foreign person.

(3) Other Sanctions Available.—The sanctions which are required to be imposed for activities described in this subsection are in addition to any other sanction which may be imposed for the same activities under any other provision of law.

(4) Definition.—For purposes of this subsection, the term "requisite knowledge" means situations in which a person "knows", as "knowing" is defined in section 104 of the Foreign Corrupt Practices Act of 1977 (15 U.S.C. 78dd-2).

(b) Consultation With and Actions by Foreign Government of Jurisdiction.—

(1) Consultations.—If the President makes a determination described in subsection (a)(1) with respect to a foreign person, the Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over that foreign person with respect to the imposition of sanctions pursuant to this section.

(2) Actions by Government of Jurisdiction.—In order to pursue such consultations with that government, the President may delay imposition of sanctions pursuant to this section for up to 90 days. Following these consultations, the President shall impose sanctions unless the President determines and certifies to the Congress that that government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in the activities described in subsection (a)(1). The President may delay the imposition of sanctions for up to an additional 90 days if the President determines and certifies to the Congress that that government is in the process of taking the actions described in the preceding sentence.

(3) Report to Congress.—Not later than 90 days after making a determination under subsection (a)(1), the President shall submit to the Committee on Foreign Relations and the Committee on Governmental Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives a report on the status of consultations with the appropriate government under this subsection, and the basis for any determination under paragraph (2) of this subsection that such government has taken specific corrective actions.

(c) Sanctions.—

(1) Description of Sanctions.—The sanctions to be imposed pursuant to subsection (a)(1) are, except as provided in paragraph (2) of this subsection, that the United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from any person described in subsection (a)(2).

(2) Exceptions.—The President shall not be required to apply or maintain sanctions under this section—

(A) in the case of procurement of defense articles or defense services—

(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy requirements essential to the national security of the United States;

(ii) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

(iii) if the President determines that such articles or services are essential to the national security under defense coproduction agreements;

(B) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose the sanctions;

(C) to—

(i) spare parts which are essential to United States products or production;

(ii) component parts, but not finished products, essential to United States products or production; or

(iii) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

(D) to information and technology essential to United States products or production; or

(E) to medical or other humanitarian items.

(d) Advisory Opinions.—Upon the request of any person, the Secretary of State may, in consultation with the Secretary of Defense, issue in writing an advisory opinion to that person as to whether a proposed activity by that person would subject that person to sanctions under this section. Any person who relies in good faith on such an advisory opinion which states that the proposed activity would not subject a person to such sanctions, and any person who thereafter engages in such activity, may not be made subject to such sanctions on account of such activity.

(e) Termination of Sanctions.—The sanctions imposed pursuant to this section shall apply for a period of at least 12 months following the imposition of sanctions and shall cease to apply thereafter only if the President determines and certifies to the Congress that—

(1) reliable information indicates that the foreign person or United States person with respect to which the determination was made under subsection (a)(1) has ceased to aid or abet any individual, group, or non-nuclear-weapon state in its efforts to acquire unsafeguarded special nuclear material or any nuclear explosive device, as described in that subsection; and

(2) the President has received reliable assurances from the foreign person or United States person, as the case may be, that such person will not, in the future, aid or abet any individual, group, or non-nuclear-weapon state in its efforts to acquire unsafeguarded special nuclear material or any nuclear explosive device, as described in subsection (a)(1).

(f) Waiver.—

(1) Criterion for Waiver.—The President may waive the application of any sanction imposed on any person pursuant to this section, after the end of the 12-month period beginning on the date on which that sanction was imposed on that person, if the President determines and certifies to the Congress that the continued imposition of the sanction would have a serious adverse effect on vital United States interests.

(2) Notification of and Report to Congress.—If the President decides to exercise the waiver authority provided in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to exercise the waiver authority.

The provisions of this subtitle, and the amendments made by this subtitle, shall take effect 60 days after the date of the enactment of this Act.

Subtitle C—International Atomic Energy Agency

SEC. 341. BILATERAL AND MULTILATERAL INITIATIVES.

It is the sense of the Congress that in order to maintain and enhance international confidence in the effectiveness of IAEA safeguards and in other multilateral undertakings to halt the global proliferation of nuclear weapons, the United States should seek to negotiate with other nations and groups of nations, including the IAEA Board of Governors and the Nuclear Suppliers Group, to—

(1) build international support for the principle that nuclear supply relationships must require purchasing nations to agree to full-scope international safeguards;

(2) encourage each nuclear-weapon state within the meaning of the Treaty to undertake a comprehensive review of its own procedures for declassifying information relating to the design or production of nuclear explosive devices and to investigate any measures that would reduce the risk of such information contributing to nuclear weapons proliferation;

(3) encourage the deferral of efforts to produce weapons-grade nuclear material for large-scale

commercial uses until such time as safeguards are developed that can detect, on a timely and reliable basis, the diversion of significant quantities of such material for nuclear explosive purposes;

(4) pursue greater financial support for the implementation and improvement of safeguards from all IAEA member nations with significant nuclear programs, particularly from those nations that are currently using or planning to use weapons-grade nuclear material for commercial purposes;

(5) arrange for the timely payment of annual financial contributions by all members of the IAEA, including the United States;

(6) pursue a prohibition on international commerce in highly enriched uranium for use in research reactors while encouraging multilateral cooperation to develop and to use low-enriched alternative nuclear fuels;

(7) oppose efforts by non-nuclear-weapon states to develop or use unsafeguarded nuclear fuels for purposes of naval propulsion;

(8) pursue an international open skies arrangement that would authorize the IAEA to operate surveillance aircraft and would facilitate IAEA access to satellite information for safeguards verification purposes;

(9) develop an institutional means for IAEA member nations to share intelligence material with the IAEA on possible safeguards violations without compromising national security or intelligence sources or methods;

(10) require any exporter of a sensitive nuclear facility or sensitive nuclear technology to a non-nuclear-weapon state to notify the IAEA prior to export and to require safeguards over that facility or technology, regardless of its destination; and

(11) seek agreement among the parties to the Treaty to apply IAEA safeguards in perpetuity and to establish new limits on the right to withdraw from the Treaty.

SEC. 342. IAEA INTERNAL REFORMS.

In order to promote the early adoption of reforms in the implementation of the safeguards responsibilities of the IAEA, the Congress urges the President to negotiate with other nations and groups of nations, including the IAEA Board of Governors and the Nuclear Suppliers Group, to—

(1) improve the access of the IAEA within nuclear facilities that are capable of producing, processing, or fabricating special nuclear material suitable for use in a nuclear explosive device;

(2)(A) facilitate the IAEA's efforts to meet and to maintain its own goals for detecting the diversion of nuclear materials and equipment, giving particular attention to facilities in which there are bulk quantities of plutonium; and

(B) if it is not technically feasible for the IAEA to meet those detection goals in a particular facility, require the IAEA to declare publicly that it is unable to do so;

(3) enable the IAEA to issue fines for violations of safeguards procedures, to pay rewards for information on possible safeguards violations, and to establish a 'hot line' for the reporting of such violations and other illicit uses of weapons-grade nuclear material;

(4) establish safeguards at facilities engaged in the manufacture of equipment or material that is especially designated or prepared for the processing, use, or production of special fissionable material or, in the case of non-nuclear-weapon states, of any nuclear explosive device;

(5) establish safeguards over nuclear research and development activities and facilities;

(6) implement special inspections of undeclared nuclear facilities, as provided for under existing safeguards procedures, and seek authority for the IAEA to conduct challenge inspections on demand at suspected nuclear sites;

(7) expand the scope of safeguards to include tritium, uranium concentrates, and nuclear waste containing special fissionable material, and increase the scope of such safeguards on heavy water;

(8) revise downward the IAEA's official minimum amounts of nuclear material ("significant quantity") needed to make a nuclear explosive device and establish these amounts as national rather than facility standards;

(9) expand the use of full-time resident IAEA inspectors at sensitive fuel cycle facilities;

(10) promote the use of near real time material accountancy in the conduct of safeguards at facilities that use, produce, or store significant quantities of special fissionable material;

(11) develop with other IAEA member nations an agreement on procedures to expedite approvals of visa applications by IAEA inspectors;

(12) provide the IAEA the additional funds, technical assistance, and political support necessary to carry out the goals set forth in this subsection; and

(13) make public the annual safeguards implementation report of the IAEA, establishing a public registry of commodities in international nuclear commerce, including dual-use goods, and creating a public repository of current nuclear trade control laws, agreements, regulations, and enforcement and judicial actions by IAEA member nations.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (H.R. 3489) to reauthorize the Export Administration Act of 1979, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment that is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clerical changes.

TITLE I—EXPORT ADMINISTRATION ACT AMENDMENTS

EXPORTS TO COCOM

The House bill (sec. 103) removes controls on all exports and reexports to and from COCOM and 5(k) countries by December 31, 1991, subject to control arrangements agreed to unanimously at COCOM so long as all producer countries agree to equivalent measurements, parameters, performance capabilities, and licensing and other requirements, and subject to conditions on pattern and practice of noncompliance and on unreliable end users.

The Senate amendment (sec. 103) is virtually identical to the House.

The conference substitute (sec. 103) is similar to the Senate amendment, but takes effect 90 days after enactment of this act.

STATEMENT OF POLICY TOWARD COUNTRIES REPRESENTING A LESSER STRATEGIC THREAT

The House bill (sec. 105) establishes a policy for relaxing licensing treatment for controlled countries that assume a less threatening strategic posture and adopt enhanced export control policies and procedures. As countries meet the specified criteria, the Secretary of State should proposed relaxed controls to COCOM and annually review such countries' compliance with those criteria. The Secretary of Commerce is encouraged to provide technical assistance to countries undertaking such steps. Section 105(a) directs the Secretary of State to propose to COCOM the removal of Poland, Hungary and Czechoslovakia from the list of controlled countries; to seek improved treatment of the Baltic republics; and to determine if improved licensing treatment is warranted for the independent states of the former Soviet Union. Section 105(b) directs that licenses for the export of items for civilian end use shall be given a presumption of approval and precludes the application of any requirement for the redesign, reengineering, or substantial modification of standard product models or designs as a condition for the approval of any license application subject to COCOM control.

The Senate amendment (sec. 106) is identical with respect to the basic policy but does not include the provisions relating to licensing policy for specific countries in Eastern Europe or the former Soviet Union nor does it include the material in House section 105(b).

The conference substitute (sec. 105) is similar to the House provision, with two minor modifications. First, the procedures for reviewing the performance of controlled countries against the specified criteria and for proposing relaxation of controls to COCOM are simplified. Second, only a single review is specified within 120 days for all former Warsaw Pact countries, other than the independent states of the former Soviet Union for which a determination shall be made in nine months, that remain on the list of controlled countries to determine if relaxed export controls are warranted.

EAST-WEST DECONTROL

The House bill (sec. 106) codifies the Core List agreements reached at COCOM in 1990 and 1991 and requires the executive branch to report to the Congress on the implementation of the Core List.

The Senate amendment (sec. 107) is similar to the House provision but does not reflect the 1991 COCOM agreements which occurred after its adoption and requires the relevant under secretaries of Commerce, State and Defense to testify on the implementation of the Core List.

The conference substitute (sec. 106) is the House provision with an amendment deleting the reporting requirement.

COMMODITY JURISDICTION

The House bill (sec. 107) establishes a procedure for clearly distinguishing between what is considered a dual use item under the Export Administration Act (EAA) and what is a munition under the Arms Export Control Act (AECA). The general rule is for items not on the International Munitions List to be subject to control under the EAA. If an item is not on the International Munitions List and the President determines that its removal from the U.S. Munitions List would have a detrimental effect on the national security of the United States, the item would be controlled under the AECA. The House bill also requires that all mass market computer software, including software with encryption capabilities, be subject to control under the EAA and not the AECA.

The Senate amendment (sec. 108) applies the same general commodity jurisdiction rule as the House bill and includes a process for the United States to appeal to COCOM for an item to be included on the International Munitions List to allow it to be subject to control under the AECA. The Senate amendment also defines munitions items and allows the President to control under the AECA items not on the International Munitions List if the President finds that extraordinary circumstances exist affecting the national security of the United States.

The conference substitute (sec. 107) is the same as the Senate amendment with respect to commodity jurisdiction and requires a report by the Comptroller General assessing the implications of control under the AECA of any mass market computer software, including software with encryption capabilities.

CONTROLS ON TELECOMMUNICATIONS

The House bill (sec. 108) requires the Secretary of State to propose to COCOM that exports of telecommunications equipment and technology for civil end use to the independent states of the former Soviet Union be treated the same as such exports to the People's Republic of China.

The Senate amendment (sec. 109) requires the Secretary of State to proposes to COCOM that a country identified by COCOM as a lesser strategic threat should be accorded, in the case of telecommunications equipment and associated operations technical data, COCOM's least restrictive control procedures.

The conference substitute (sec. 108) requires the Secretary of Commerce to publish regulations implementing the agreement on telecommunications equipment for civil end uses reached at COCOM on June 1 and 2, 1992. It also provides for the treatment of license applications for the export of equipment and technology subject to that agreement.

The committee on conference notes that, as democratic reforms proceed in the independent states of the former Soviet Union, the rationale for controlling telecommunications equipment is diminishing. The committee of conference expects the United States to pursue further liberalizations of controls to keep pace with political and economic changes. The committee of conference also urges that the United States follow the same policy of phased decontrol that has been used to ease restrictions on telecommunications exports to Poland, Hungary, and Czechoslovakia.

CONTROL LIST REVIEW

The House bill (sec. 111) requires periodic review of the Commodity Control List, the results of which are to be used as the basis for proposals to COCOM for revisions of the International Industrial List. The House bill also provides for the periodic termination of controls on all items on the Commodity Control List unless it is determined that such controls should be maintained on the basis of the policy set forth in section 3(2)(A) of the Export Administration Act.

The Senate amendment (sec. 112) is similar to the House bill, but provides that in determining whether a good or technology would make a significant contribution to the military potential of any other country or combination of countries which would prove detrimental to the national security of the United States, the Secretary of Commerce must consult with the Secretary of Defense.

The conference substitute (sec. 111) is the same as the House bill.

EXPORTS OF RELATED TECHNICAL DATA

The House bill (sec. 114) allows for the export of operation technical data related to a good or technology for which an export license has been obtained.

The Senate amendment (sec. 115) is identical to the House provision.

The conference substitute (sec. 114) is similar to the House bill with a technical amendment to reflect wording of the exact policy adopted by COCOM on this matter.

NOTIFICATION OF COCOM ACTIONS

The House bill (sec. 118) requires the Secretary of Commerce to publish the full text of the 3 International Lists of COCOM, as well as the full text of any COCOM agreements affecting these lists, proposals of the United States to COCOM, decision on requests for general exceptions, and other decisions made by COCOM, with provisions for protection of national security, confidentiality, and consistency with COCOM policy.

The Senate amendment (sec. 119) is essentially the same.

The conference substitute (sec. 118) is similar to the House bill with an amendment to require publication of the 3 COCOM lists within 120 days, if such action is not accomplished pursuant to section 17(g) of the Act, as amended, and to permit the Secretary of Commerce to make U.S. negotiating proposals for COCOM available to the public but without requiring their actual publication in advance of COCOM negotiations.

TERRORIST COUNTRIES

The House bill (sec. 119) restricts the sale of dual use equipment and technology to terrorist countries. No export of dual use items controlled for nuclear, missile technology, or chemical and biological purposes is permitted to terrorist countries unless the President determines that the transaction is essential to the national security interests of the United States and reports to Congress at least 15 days prior to the proposed transaction. The export of any other dual use items on the Commodity Control List is also prohibited unless the Secretary of State determines that such export would not make a significant contribution to the military potential of such country or enhance the ability of such country to support acts of international terrorism.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 119) is identical to the House bill. As a general policy, it is the intention of the committee of conference to ensure that terrorist countries are unable to duplicate Iraq's success in acquiring sensitive dual-use technology. This provision also toughens the standards applied to exports to Syria. Since September 1, 1991, applications to export some items on the Commodity Control List to Syria have been subject to case-by-case review rather than a presumption of denial. This provision severely limits discretion and creates a strong presumption of denial.

CRIMINAL CIVIL PENALTIES

The House bill (sec. 120) increases the penalties for willful violations of export controls under sections 5 and 6 of the Act. This section also requires referral of antiboycott violations to the Attorney General for prosecution.

The Senate amendment (sec. 121) increases criminal penalties but is silent on civil penalties and antiboycott violations.

The conference substitute (sec. 120) is the same as the House bill.

JUDICIAL AND ADMINISTRATIVE REVIEW

The Senate amendment (sec. 124) allows for judicial review of certain actions taken under the Export Administration Act.

The House bill (sec. 123) is similar to the Senate amendment, but includes a provision which allows any person aggrieved by an administrative action to appeal such action to an administrative law judge.

The conference substitute (sec. 123) is same as the Senate amendment.

POLICY TOWARD THE PEOPLE'S REPUBLIC OF CHINA

The House bill (sec. 124) establishes as U.S. policy the elimination of export license preferences for the People's Republic of China (PRC), the denial of applications for bulk license to the PRC, and the restriction of access to dual use goods and technology representing proliferation concerns. The House bill also precludes the President from liberalizing export controls to the PRC until 30 days after reporting to Congress.

The Senate amendment (sec. 125) is virtually identical to the House bill. It differs in further stipulating that the U.S. representative to COCOM should oppose license preferences for China in implementing the core list review begun in 1990. It also differs in the nonproliferation standard to be met by the PRC in order for the President to change the export licensing policy after advance notice to Congress.

The conference substitute (sec. 124) is the same as the House bill.

EXPORT OF SATELLITES FOR LAUNCH BY PEOPLE'S REPUBLIC OF CHINA

The Senate amendment (sec. 126) prohibits the export of U.S. origin satellites for launch from a vehicle owned by the PRC and provides that the President may waive the prohibition on a case-by-case basis upon the certification by the U.S. Trade Representative that the PRC is in full compliance with the U.S.-China agreement regarding international trade in commercial launch services.

The House bill (sec. 125) prohibits such exports without a waiver provision.

The conference substitute (sec. 125) is similar to the Senate amendment, but states that the prohibition is prospective, and does not apply to six projects certified by the President prior to the enactment of this section in this notice to Congress of September 11, 1992.

EXPORTS TO THE FORMER SOVIET UNION

The House bill (sec. 126) expresses the sense of Congress that no exports to the independent states of the former Soviet Union permitted by this title should be made if the independent states restrict the emigration of Jews, if the government has not been chosen democratically or is not moving toward a free society and a market economy, if more than 15 percent of its annual budget is spend on military activities, or until it agrees to withdraw its troops from the Baltic nations.

The Senate amendment (sec. 127) expresses the sense of Congress that no exports permitted by this title should be licensed until the President certifies to Congress that the independent states of the former Soviet Union have entered into negotiations for self-determination in Lithuania, nor be licensed if an independent state restricts the emigration of Jews.

The conference substitute (sec. 126) expresses the sense of Congress that no exports permitted under this title should be made to any independent state of the former Soviet Union if such state restricts emigration of Jews or does not agree to expeditiously withdraw its troops from Latvia, Lithuania, and Estonia.

AUTHORIZATION OF APPROPRIATIONS

The House bill (sec. 127) authorizes $41.5 million for fiscal year 1992 to the Department of Commerce to carry out the purposes of this Act. Of that amount, $150,000 shall be available only for the representation of the Secretary or the Secretary's designee at the Coordinating Committee. The House bill also authorizes such additional amounts for fiscal year 1992 as may be necessary for increases in salary, pay, retirement, other employee benefits authorized by law and other nondiscretionary costs.

The Senate amendment (sec. 129) authorizes $46.707 million for fiscal year 1991.

The conference substitute (sec. 1290 authorizes $42.813 million for fiscal year 1993 and such sums as may be necessary for fiscal year 1994 to carry out this act. The conference substitute also authorizes such additional amounts as may be necessary in each fiscal year for increases in salary, pay, retirement, other employee benefits authorized by law and other nondiscretionary costs.

EXTENSION OF THE ACT

The House bill (sec. 128) extends the Export Administration Act through March 1, 1993.

The Senate amendment (sec. 130) extends the Export Administration Act through June 30, 1992.

The conference substitute (sec. 128) extends the Export Administration Act through September 30, 1994.

TECHNICAL AMENDMENTS

The House bill (sec. 129) makes various technical amendments to the Export Administration Act.

The Senate amendment (sec. 131) is virtually identical to the House bill.

The conference substitute (sec. 129) combines the House and Senate provisions.

REPORTING REQUIREMENTS

The House bill (sec. 130) directs the Secretary of Commerce to evaluate and report on the potential role of private sector firms in supplementing the information available to the Government for purposes of licensing and monitoring exports of sensitive technology.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 130) replaces the current semiannual reporting requirement regarding the operations of the Office of Foreign Availability with a provision requiring such information in the annual report of the Bureau of Export Administration, deletes the current reporting requirements on overdue licenses and provides for a summary of this information in the annual report, and provides for a similar annual summary of the weekly reports on short supply controls.

SHORT SUPPLY CONTROLS

The House bill (sec. 128) would extend controls on short supply along with the rest of the Export Administration Act.

The Senate amendment (sec. 130) is essentially identical to the House bill.

The conference substitute (sec. 131) would prohibit the export of unprocessed timber from State lands. At present, 75% of the unprocessed timber from State lands may not be exported. The conference substitute places current short supply policy in statute. Nothing in the amendment to the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620) shall apply to any contract for the purchase of unprocessed timber from public lands entered into before the effective date of the Secretary's order issued pursuant to new section 491(b)(2)(C).

REVIEW OF LICENSES

The Senate amendment (sec. 120) establishes a requirement that the Secretary of Defense and the Secretary of State be consulted for a period of 20 days regarding any license application under section 6 of the EAA involving an export to a terrorist country or involving an export of goods or technology controlled for nonproliferation purposes. A disagreement by one of the Secretaries with the judgment of the Secretary of Commerce may be referred to the President for resolution of the dispute within 20 days.

The House bill contains no comparable provision.

The conference substitute is the same as the House position. The committee of conference believes that any problems that may have existed in consideration of licenses related to proliferation are now being adequately addressed using existing authorities in sections 6 and 10(g) of the Export Administration Act and new procedures established for interagency review of licenses pursuant to the President's Enhanced Proliferation Control Initiative announced last year. The Departments of Defense, State, and Commerce have advised the committee of conference that these procedures may have existed with respect to terrorist countries are being addressed by the effective embargo on licensed trade with terrorist countries imposed pursuant to section 119 of the conference substitute.

STANDARD OF MEASUREMENT FOR COMPUTERS

The Senate amendment (sec. 105) requires the Secretary of Commerce to evaluate the appropriateness of replacing Processing Data Rate as the standard of measurement for control of computers.

The House bill contains no comparable provision.

The conference substitute is the same as the House position.

TITLE II—EXPORT PROMOTION

TRADE PROMOTION COORDINATING COMMITTEE

The House bill (sec. 205) codifies the Trade Promotion Coordinating Committee (TPCC), including its duties, membership, and annual report to Congress.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 201) is similar to the House provision, with the addition of a requirement that the TPCC develop a governmentwide strategic plan for carrying out federal export promotion and export financing programs. The plan is required to establish a set of priorities for federal activities in support of U.S. exports and explain the rationale for the priorities; review current federal programs in light of the priorities and develop a plan to bring such activities in line with the priorities and improve coordination of such activities; identify areas of overlap and duplication among federal activities and propose means of eliminating them; propose to the President annually a unified federal trade promotion budget that supports the plan for priority activities and improved coordination and eliminates funding for the areas of overlap and duplication; and review state efforts to promote U.S. exports and propose means of developing cooperation between state and federal efforts. The Chair of the TPCC is required to submit an annual report to the Congress describing the strategic plan developed by the TPCC, the implementation of the plan, and any revisions thereto.

ONE-STOP SHOPS

The House bill (sec. 201) requires a report by the Secretary of Commerce on the adequacy of training of United States and Foreign Commercial Service (FSC) officers and calls for an increase in the number of commercial service in Taiwan, Japan, and Canada.

The Senate amendment (sec. 201) is similar to the House bill, but expands the list of the multilateral development institutions to which commercial service officers should be assigned.

The conference substitute (sec. 202) amends the Export Enhancement Act of 1988 to require the FCS to utilize its domestic and foreign officers as "one-stop shops" for U.S. exporters by providing information on all federal export promotion activities, assisting in identifying federal programs of greatest assistance, and assisting in making contact with such programs.

COMMERCIAL SERVICE COOPERATION IN FEDERAL FINANCING AND INSURANCE PROGRAMS

The House bill (sec. 202) adds "methods of distribution of goods and services" to the programs of the Market Development Cooperator Program and requires a report every six months on the implementation of the Market Development Cooperator Program.

The Senate amendment (sec. 202) is similar but does not require a report.

The conference substitute (sec. 203) amends the Export Enhancement Act of 1988 to require: (1) the Export-Import Bank of the United States (Ex-Im Bank), the Overseas Private Investment Corporation (OPIC), the Trade and Development Program (TDP), and the Small Business Administration (SBA) to provide information on their programs and financing practices to the FCS and undertake a training program for FCS officers; and (2) the FCS to provide U.S. exporters and export finance institutions with information about the programs of the Ex-Im Bank, OPIC, TDP, and SBA, assistance in completing applications for assistance from these agencies, and assistance in addressing any deficiencies in such applications. It is the intent of the committee of conference that FCS officers be knowledgeable about agency programs when they assist exporters and export finance institutions in addressing any deficiencies in applications submitted to the four agencies listed above, and if they are not already knowledgeable, they should become so as soon as possible.

ENVIRONMENTAL TRADE PROMOTION

The conference substitute (sec. 204) amends the Trade Enhancement Act of 1988 to establish an Environmental Trade Promotion Working Group within the TPCC to develop a strategy for expanding U.S. exports of environmental technologies, goods, and services. The Chair of the Working Group is directed to assess the effectiveness of U.S. programs for the promotion of exports of environmental technologies, goods, and services; recommend improvements to such programs; and ensure that the members of the working group coordinate their environmental trade promotion programs. A report on the activities of the Working Group is to be included in the annual TPCC report to the Congress. This section, which was not included in either the House bill or the Senate amendment, is designed to address the relatively new issue of environmental trade promotion and to be consistent with the export promotion provisions contained in the conference report to accompany the Export Enhancement Act of 1992.

RANK OF COMMERCIAL SERVICE OFFICERS

The House bill (sec. 201(a)) amends the Export Enhancement Act of 1988 to increase from eight to twenty the number of FCS officers with the rank of Minister-Counselor.

The Senate amendment (sec. 201(a)) increases the number of FCS officers with the rank of Minister-Counselor to twelve.

The conference substitute (sec. 205) increases the number of FCS officers with the rank of Minister-Counselor to sixteen.

REPORT ON EXPORT POLICY

The House bill (sec. 204) requires the Secretary of Commerce to submit an annual report on the international economic position of the United States and to appear before the Committee on Banking, Housing, and Urban Affairs of the Senate of the Committee on Foreign Affairs of the House of Representatives to testify on issues addressed in such report. The House bill (sec. 206) also requires the General Accounting Office (GAO) to report annually on coordination of federal export promotion efforts.

The Senate amendment (secs. 204 and 205) contains nearly identical provisions.

The conference substitute (sec. 206) amends the Export Enhancement Act of 1988 to require the Secretary of Commerce to submit to the Congress no later than May 31 of each year a report on the international economic position of the United States and, no later than June 30 of each year, to testify on the issues addressed in that report before the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives. The report would address: (a) the state of U.S. international economic competitiveness, focusing on the efforts of the Commerce Department to promote research and development of an investment in technologies and products deemed critical for industrial leadership and increase exports thereof; (b) the implementation of the governmentwide strategic plan developed by the TPCC; (c) recommendations of the Commerce Department to improve the U.S. balance of trade; (d) the effects of trade barriers and foreign subsidies on the international economic competitiveness of the United States; (e) the efforts of the Commerce Department to reduce trade barriers and foreign subsidies on the international economic competitiveness of the United States; (f) the efforts of the Commerce Department to reduce trade barriers; and (g) the adequacy of U.S. Government export financing programs and recommendations for improvement.

EXPORT PROMOTION AUTHORIZATION

The House bill (sec. 207) authorizes $166 million for export promotion programs and $5 million for the Market Cooperator Development Program for fiscal year 1992.

The Senate amendment (sec. 206) authorizes $167.6 million for export promotion and $6 million for the Market Cooperator Development Program for fiscal year 1992.

The conference substitute (sec. 207) authorizes $190 million for fiscal year 1993 and $200 million for fiscal year 1994 for export promotion programs and $5.5 million for each of the fiscal years 1993 and 1994 for the Market Cooperator Development Program.

INTEREST SUBSIDY PROGRAM

The Senate amendment (sec. 207) extends the Ex-Im Bank interest subsidy program to fiscal year 1992 and places a limitation of $435 million on the authorization of appropriations for that program.

The House bill contains no comparable provision.

The conference substitute is the same as the House position.

HUMAN RIGHTS IN YUGOSLAVIA

The Senate amendment (sec. 208) expresses the sense of Congress with respect to the abuse of human rights in Yugoslavia and requires a report by the President on why the Ex-Im Bank should not restrict its activities with respect to Yugoslavia.

The House bill contains no comparable provision.

The conference substitute is the same as the House position.

INCREASE OF MEMBERSHIP OF ADVISORY COMMITTEE

The Senate amendment (sec. 209) increases the number of positions on the advisory committee established by section 3(d) of the Export-Import Bank Act of 1945.

The House bill contains no comparable provision.

The conference substitute is the same as the House position.

TECHNICAL CORRECTIONS RELATING TO THE INTERNATIONAL DEVELOPMENT AND FINANCE ACT OF 1989

The Senate amendment (sec. 210) repeals certain provisions of the International Development and Finance Act of 1989.

The House bill contains no comparable provisions.

The conference substitute is the same as the House position.

TITLE III—NUCLEAR PROLIFERATION PREVENTION ACT OF 1992

The House bill (title III) applies a dual requirement for full-scope International Atomic Energy Agency (IAEA) safeguards and a nuclear cooperation agreement with the United States as conditions for the licensing for export of nuclear components, technology, and dual-use items on the nuclear referral list. The House bill also provides for negotiations aimed at improving multilateral controls on nuclear-related exports through the Nuclear Suppliers Group (NSG), and for sanctions against foreign persons or countries which engage in nuclear commerce in contravention of measures agreed to by the NSG. Finally, the House bill requires the President to submit to Congress, as part of its annual report on the U.S. Government's efforts to prevent nuclear proliferation, additional information and analysis regarding the effectiveness of IAEA safeguards and inspections and the implementation of nuclear and nuclear-related dual use export controls.

The Senate amendment contains no comparable provision.

The conference substitute (title III) requires reporting by the President on the implementation of U.S. export controls on nuclear and nuclear-related exports. The conference agreement also includes extensive sanctions on the export by individuals or countries of nuclear components or technology that contribute to the recipient's ability to develop or manufacture a nuclear explosive device. The conference substitute also expresses the sense of the Congress that the United States should enter into negotiations to maintain and enhance international confidence in the effectiveness of IAEA safeguards and in other multilateral undertakings to halt the global proliferation of nuclear weapons.

TITLE IV—ECONOMIC COOPERATION PROJECTS IN CHINA AND TIBET

The House bill (title IV) establishes principles to govern the conduct of U.S. companies which participate in economic cooperation projects in the People's Republic of China and Tibet. The principles, which parallel the Sullivan Principles for conducting business in South Africa, relate to the protection of worker rights, the non-use of forced labor, the protection of basic human freedoms, and the promotion of market economics. The House bill requires U.S. parent companies participating in such projects to register with the Secretary of State, to indicate whether the company will adhere to such principles, and to report annually to the Secretary regarding their adherence to such principles. The House bill further requires the Secretary to encourage member nations of the Organization for Economic Cooperation and Development (OECD) to promote adherence to the principles and requires the Secretary, after two years, to report annually to both the OECD and the Congress on adherence to the principles. Finally, the House bill requires the Secretary to report to Congress annually on enforcement of section 307 of the Tariff Act of 1930 regarding the use of forced labor in China and Tibet.

The Senate amendment contains no similar provision.

The conference substitute (title IV) is similar to the House bill with the following changes: minor wording changes in the principles; deletion of the registration requirement for U.S. companies, broadening of the scope of the Secretary's annual report to Congress to include "other available information"; and deletion of the requirement that the Secretary report to the OECD. Also, rather than requiring U.S. companies to report on their adherence to the principles, the conference substitute encourages the Secretary to seek such reports from U.S. companies.

The committee of conference hopes and expects that U.S. companies will cooperate in implementing this provision. To the extent that this cooperation is not forthcoming, the committees of jurisdiction will revisit this issue in two years when the Export Administration Act is next reauthorized.

TITLE V—MISCELLANEOUS PROVISIONS

MILITARY ASSISTANCE TO CUBA

The House bill (sec. 501) expresses the sense of the Congress that continuing Soviet military assistance to Cuba remains a serious problem in U.S.-Soviet relations and that the Soviet Union or any successor entity should cease military assistance to the Castro regime and should adopt policies supporting the political, economic, and human rights of the Cuban people.

The Senate amendment (sec. 301) contains a nearly identical provision.

The conference substitute (sec. 501) is identical to the House bill, except that references to the Soviet Union have been changed to the "independent states of the former Soviet Union".

ATTACKS AGAINST ISRAELIS AND ILLEGAL ACTIVITIES IN THE UNITED STATES

The House bill (sec. 501) directs the President to submit an analysis of the impact on efforts to achieve peace in the Middle East to various recent attacks against Israelis and requires a report by the FBI on illegal activities in the United States by the Palestine Liberation Organization.

The Senate amendment (sec. 302) is similar to the House provision, except that the second report is to be made by the Secretary of the Treasury rather than by the FBI.

The conference substitute (sec. 502) is identical to the House bill.

The House bill contains no comparable provision.

The conference substitute is the same as the House position.

SANCTIONS AGAINST FOREIGN VIOLATORS

The Senate amendment (sec. 304) declares that no foreign person may violate an executive order implementing the United Nations embargo of Iraq and authorizes the President to bar investment in the United States by any such person.

The House bill contains no comparable provision.

The conference substitute is the same as the House position.

TERRORIST DEATH PENALTY ACT OF 1991

The Senate amendment (sec. 305) imposes a mandatory death penalty for a terrorist who commits murder in the United States.

The House bill contains no comparable provision.

The conference substitute is the House position.

PENALTIES FOR CBW VIOLATIONS THAT HARM U.S. NATIONALS ABROAD

TITLE I—THE OVERSEAS PRIVATE INVESTMENT CORPORATION

The House bill (title I) reauthorizes the Overseas Private Investment Corporation, rewriting section 231-240A of the Foreign Assistance Act. Substantively, the House bill makes the following changes in the existing OPIC authority: (1) extends OPIC's authority for three years; (2) amends the eligibility criteria for participating countries to include countries that are making the transition from nonmarket to market economies; (3) instructs OPIC to include additional text in all contracts protecting the free association of labor, the enforcement of child labor laws, and protections against forced labor; (4) amends OPIC's reporting requirements to include any loss of U.S. jobs created by a project, whether or not the project itself would create other U.S. jobs; (5) contains a series of amendments to conform existing law to the provisions of the Federal Credit Reform Act of 1990 and authorizes OPIC to draw from its noncredit account revolving fund to cover the cost of its activities; (6) raises the maximum contingent liability for insurance from $7.5 billion in current law to $10 billion, and for guarantees from $2.5 billion in current law to $3 billion; (7) raises the ceiling on OPIC's investment guaranty authority from $1.5 billion to $3.5 billion; (8) establishes a program level for the loan guarantee program of $500 million for fiscal year 1993, $800 million for fiscal year 1994 and $900 million for fiscal year 1995; (9) establishes a program level for the direct loan program of $50 million for fiscal year 1993, $75 million for fiscal year 1994 and $100 million for fiscal year 1995; (10) authorizes OPIC to draw up to $11 million for fiscal year 1993, $13 million for fiscal year 1994, and $15 million for fiscal year 1995 from its non-credit account revolving fund to cover its administrative costs; (11) sets fines for an investor who knowingly commits fraud in activities with the Corporation; and (12) clarifies the relationship to credit reform of OPIC's authority to protect the value of local currency received as salvage on insurance claims by reinvesting this local currency in the local economy.

The Senate amendment (title I) extends the authority of OPIC for one year, and raises the maximum contingent liability for guarantees from $1.5 billion to $2 billion.

The conference substitute (title I) does not rewrite OPIC's authority, but includes most of the substantive provisions in the House bill, authorizing the program for fiscal years 1993 and 1994. The conference substitute authorizes the Corporation to draw from its noncredit account revolving fund $8.128 million for fiscal year 1993 and $11 million for fiscal year 1994 to cover its administrative expenses; raises the ceiling on OPIC's investment guaranty authority from $1.5 billion to $2.5 billion; raises the maximum contingent liability for insurance from $7.5 billion to $9 billion; sets a program ceiling of $650 million for fiscal year 1993 and $850 million for fiscal year 1994 for its guarantee and direct loan program. In addition, the conference substitute includes a provision which requires an investor obtaining insurance, reinsurance, guarantees or other financing from OPIC to certify to the Corporation that any contract for the export of goods contain a clause requiring U.S. insurance companies to have a fair and open competitive opportunity to provide insurance against the risk of loss on such exports, except that the certification requirement does not apply to investors who do not have controlling interest in fact in the project in question.

TITLE II—THE TRADE AND DEVELOPMENT AGENCY

The House bill (title II) rewrites section 661 of the Foreign Assistance Act of 1961 which provides the authorities of the Trade and Development Program, doubles the authorization of appropriations for the Trade and Development Program, and renames it the Trade and Development Agency (TDA). The House bill further authorizes the Director of the TDA to provide funds for feasibility studies and other activities related to development projects which use U.S. exports and expands the mandate of the Agency to include architectural and engineering design, which can create an advantage for U.S. exports by setting the standard in overseas projects. Title II also permits the Agency to provide technical assistance for project related activities. Title II further provides an authorization of $55 million for fiscal year 1992 and $70 million for fiscal year 1993 for the programs of the TDA. Title III provides an additional authorization of $20 million for fiscal year 1993 for the Trade and Development Agency.

The Senate amendment contains no comparable provision.

The conference substitute (title II) is virtually identical to the House bill, but authorizes $55 million for fiscal year 1993 and $65 million for fiscal year 1994.

TITLE III—AID, TRADE, AND COMPETITIVENESS

The House bill (title III) establishes statutorily and provides guidelines to the existing Office of Capital Projects within the Agency for International Development (AID). In coordination with the appropriate agencies of the Trade Policy Coordinating Committee (TPCC), AID is directed to review periodically the infrastructure needs of developing countries and of countries making the transition from nonmarket to market economies. The Capital Projects office is authorized to directly support developmentally sound capital projects that utilize U.S. exports and services. The House bill is consistent with the Organization for Economic Cooperation and Development (OECD) guidelines for overseas capital projects. The House bill also urges the President to use $650 million for fiscal year 1992 and $700 million for fiscal year 1993 for capital projects. All funding is to be drawn from economic support fund assistance, assistance under the Multilateral Assistance Initiative for the Philippines, and assistance under the Support for Eastern European Democracy (SEED) Act. There is a prohibition on funds being drawn from amounts made available for development assistance. In addition, the House bill (title VIII) requires the Administrator of AID to identify and provide funding for capital projects to alleviate the worst manifestations of poverty or to promote environmental safety and sustainability at the community level.

The Senate amendment contains no comparable provision.

The conference substitute (title III) combines the authorities contained in titles III and VIII of the House bill. The conference substitute clarifies that funds under chapters 1 and 10 of part I of the Foreign Assistance Act of 1961 may be used only for capital projects for basic infrastructure (those projects authorized under title VIII of the House bill).

TITLE IV—UNITED STATES COMMERCIAL CENTERS

The House bill (title IV) establishes, as a five year pilot program within the Department of Commerce, Commercial Centers in either one of the independent states of the former Soviet Union or one of the Baltic states, and in one country in Asia, Latin America, and Africa. The purpose of these Centers is to provide additional resources for the promotion of U.S. exports and to familiarize U.S. exporters with the industries, markets, and customs of the host countries. Twenty two million dollars is provided for these Centers for fiscal years 1993 through 1997. Each Center must collect and publish data regarding the host country's market, and provide technical, clerical, administrative, and legal assistance to exporters on a user fee basis. The amendment instructs the Department of Commerce to staff each Center with members of the U.S. and Foreign Commercial Service (FCS), participants in the Market Development Cooperator Programs, Foreign Trade Fellows, and other employees of other trade promotion agencies within the U.S. Government. In addition, the Secretary of Commerce must locate each Center in the primary commercial city of the host country and acquire office and exhibition space to enable the Centers to perform their mandated functions.

The Senate amendment contains no comparable provision.

The conference substitute (title IV) is essentially the same as the House bill except that the Secretary of Commerce is authorized and encouraged, rather than mandated, to establish these Centers and the reference to pilot programs is deleted. The conference substitute also removes the authorization to place a Center in the Soviet Union as an American Business Center has already been authorized in the independent states of the former Soviet Union through the FREEDOM Support Act. The conference substitute also deletes the language regarding foreign trade fellows.

The committee of conference notes that the FCS already emphasizes international business experience in its regular recruitment of officers and uses the market Development Cooperator Program and limited appointments to supplement corps skills. The committee of conference recognizes the value of this expertise and encourages the FCS to use it as appropriate.

It is the intent of the committee of conference that these Centers be established by and collocated with the FCS, and that all information generated by the Centers be entered into and disseminated through existing FCS information systems.

In implementing the provisions of this title, the committee of conference urges that particular attention be given to assisting American firms in the export of technologies, manufacturing processes, products, and services that will help protect the environment and natural resources around the globe. U.S. companies are the undisputed world leaders in the development and production of technologies, manufacturing process, products, and services to control or reduce pollution and to clean up existing pollution problems. U.S. companies can be in the forefront of the global market for environmental products, but will have aggressive competition from firms in other countries. U.S. Commercial Centers can and should provide the export promotion assistance to ensure that U.S. producers of environmental goods and services remain at the forefront of this global market.

The committee of conference finds that the activities and programs of the Center for Global Competitiveness and Entrepreneurship at Babson College in Wellesley, Massachusetts, play a critical role in enhancing opportunities for exporters and that its expertise in training business leaders for the global market will be invaluable to the export promotion objectives contained in this title. The committee of conference supports and encourages the expansion of the Center at Babson College.

TITLE V—OTHER EXPORT PROMOTION ACTIVITIES

The House bill (title V) directs the Secretary of Commerce to provide at least one additional full-time procurement officer at each of the multilateral development banks in order for that officer to act as a liaison between the business community and the bank. The Secretary of Commerce must ensure that the procurement officer has access to, and disseminates to U.S. businesses, information relating to projects being proposed by the multilateral bank to which the officer is assigned. The procurement officer is to ensure that U.S. businesses, especially small- and medium-sized businesses, are aware of bidding opportunities and encourage U.S. business to fairly compete for projects in the economic fields in which they are the most competitive.

The Senate amendment contains no comparable provision.

The conference substitute (title V) is essentially identical to the House bill, but includes an authorization of $1 million for each of fiscal years 1993 and 1994. Funding authorized under this title can be used only for the placement of additional procurement officers at the multilateral development banks.

TITLE VI—ENTERPRISE FOR THE AMERICAS INITIATIVE

The House bill (title VI) authorizes the Enterprise for the Americas Initiative, which establishes basis criteria which Latin American or Caribbean countries must meet in order to qualify for debt reduction benefits and leaves discretion to the President to make the eligibility determination. Countries must have in effect, or be making progress toward: (1) an IMF standby agreement or related equivalent agreement; (2) an IDA or World Bank structural adjustment loan; major investment reforms; and (3) an agreement with commercial bank lenders on a financing program including debt or debt service reduction. The House bill also requires that an eligible country have a democratically elected government, must not harbor or sponsor international terrorists, must be cooperating on antinarcotics activities, and must respect human rights.

The House bill also authorizes debt restructuring for bilateral foreign assistance debt owed to the U.S. Government as of January 1, 1992 and further provides that the restructured debt will bear a concessional interest rate and requires that an Environmental Framework Agreement between the United States and the beneficiary country be negotiated before interest payments may be made in local currencies. The local currencies are the property of the beneficiary country until they are disbursed to local administering bodies established pursuant to an Environmental Framework Agreement. In the absence of a Framework Agreement, interest must be repaid in dollars to the U.S. Treasury and may not be retroactively applied to the Environmental Fund.

The House bill requires each beneficiary country that enters into an Environmental Framework Agreement to establish an Environmental Fund to receive payments in local currencies. A country may still be eligible for benefits under the Facility even if it does not sign an Environmental Framework Agreement. Local currency payments are not to be considered assistance for the purpose of laws which limit assistance to a country. The administering body may make grants from either the principal deposited in the Fund or from accrued interest only in accordance with an Environmental Framework Agreement between the United States and an eligible country.

The House bill authorizes the Secretary of State to negotiate an Environmental Framework Agreement with eligible countries, in consultation with the Enterprise for the Americas Board. Eligible activities are described by the House bill as being those that link the conservation and sustainable use of natural resources with local community development. Grants may only be made to: beneficiary country NGOs; local or regional entities; and, in rare cases, to the beneficiary countries. Finally, the House bill requires the President to transmit to the Speaker of the House of Representatives and the President Pro Tempore of the Senate a report on the implementation of this title.

The Senate bill contains no comparable provision.

The conference substitute (title IV) is essentially the same as the House bill, but includes an authorization for the establishment of the International University of the Americas. The conference substitute directs the Secretary of State to determine the location of such a University in the Americas based upon the host country's accessibility, commitment to economic integration and democratic values, and willingness to provide some assistance for its construction. The conference substitute authorizes $500,000 under chapter I of part I and chapter 4 of part II of the Foreign Assistance Act to carry out the site location and design phase for the University.

TITLE VII—TRADE PROMOTION EXPANSION

The House bill (title VII) provides additional funding to the Secretary of Commerce for the purpose of placing additional FCS officers in countries with which the United States has the largest trade deficit and in newly democratic countries of Central and Eastern Europe. The House bill also requires the Secretary of Commerce to report to the Congress on the placement of officers and their effectiveness in their new posts.

The Senate amendment contains no comparable provision.

The conference substitute (title VII) is identical to the House bill.

TITLE VIII—GENERAL PROVISIONS

The conference substitute (title VIII) includes language which prohibits funds authorized under this Act to be expended for any financial incentive to a business enterprise currently located in the United States for the purpose of including an enterprise to relocate overseas if such a relocation is likely to displace U.S. workers. The title further prohibits any funding for projects or activities that violate internationally recognized worker rights.

The committee of conference included this title to reflect its concern regarding the recent reports that foreign assistance funds may have been used to entice U.S. companies to relocate overseas thereby displacing American workers. The committee of conference further expresses its concern regarding additional reports that foreign assistance funds may have been used for projects which violated internationally recognized workers rights. This language was not originally included in either the House bill or the Senate amendment as these reports had not yet surfaced at the time of their drafting.

TITLE I—AMENDMENTS TO THE DEFENSE PRODUCTION ACT OF 1950

PART A—DECLARATION OF POLICY

SEC. 101. DECLARATION OF POLICY.

Section 2 of the Defense Production Act of 1950 (50 U.S.C. App. 2062) is amended to read as follows:

"SEC. 2. DECLARATION OF POLICY.

"(a) FINDINGS.—The Congress finds that—

"(1) the vitality of the industrial and technology base of the United States is a foundation of national security that provides the industrial and technological capabilities employed to meet national defense requirements, in peacetime and in time of national emergency;

"(2) in peacetime, the health of the industrial and technological base contributes to the technological superiority of United States defense equipment, which is a cornerstone of the national security strategy, and the efficiency with which defense equipment is developed and produced;

"(3) in times of crisis, a healthy industrial base will be able to effectively provide the graduated response needed to effectively meet the demands of the emergency;

"(4) in view of continuing international problems, the Nation's demonstrated reliance on imports of materials and components, and the need for measures to reduce defense production lead times and bottlenecks, and in order to provide for the national defense and national security, the United States defense mobilization preparedness effort continues to require the development of—

"(A) preparedness programs;

"(B) domestic defense industrial base improvement measures;

"(C) provisions for a graduated response to any threatening international or military situation;

"(D) the expansion of domestic productive capacity beyond the levels needed to meet the civilian demand; and

"(E) some diversion of certain materials and facilities from civilian use to military and related purposes.

"(5) to meet the requirements referred to in this subsection, this Act affords to the President an array of authorities to shape defense preparedness programs and to take appropriate steps to maintain and enhance the defense industrial and technological base;

"(6) the activities referred to in this subsection are needed in order to—

"(A) improve domestic defense industrial base efficiency and responsiveness;

"(B) reduce the time required for industrial mobilization in the event of an attack on the United States; or

"(C) to respond to actions occurring outside of the United States which could result in the termination or reduction of the availability of strategic and critical materials, including energy, and which could adversely affect the national defense preparedness of the United States;

"(7) in order to ensure national defense preparedness, which is essential to national security, it is necessary and appropriate to assure the availability of domestic energy supplies for national defense needs;

"(8) to further assure the adequate maintenance of the defense industrial base, to the maximum extent possible, such supplies should be augmented through reliance on renewable fuels, including solar, geothermal, and wind energy and ethanol and its derivatives, and on energy conservation measures;

"(9) the domestic defense industrial base is a component part of the core industrial capacity of the Nation;

"(10) much of the industrial capacity which is relied upon by the Federal Government for military production and other defense-related purposes is deeply and directly influenced by—

"(A) the overall competitiveness of the United States industrial economy; and

"(B) the ability of United States industry, in general, to produce internationally competitive products and operate profitably while maintaining adequate research and development to preserve that competitive edge in the future, with respect to military and civilian production;

"(11) the domestic defense industrial base is developing a growing dependency on foreign sources for critical components and materials used in manufacturing and assembling major weapons systems for the national defense;

"(12) such dependence is threatening the capability of many critical industries to respond rapidly to defense production needs in the event of war or other hostilities or diplomatic confrontation; and

"(13) the inability of United States industry, especially smaller subcontractors and suppliers, to provide vital parts and components and other materials would impair our ability to sustain United States Armed Forces in combat for longer than a short period.

"(b) Statement of Policy.—It is the policy of the United States that—

"(1) in order to ensure productive capacity in the event of an attack on the United States, the United States should encourage the geographic dispersal of industrial facilities in the United States to discourage the concentration of such productive facilities within limited geographic areas which are vulnerable to attack by an enemy of the United States;

"(2) to ensure that essential mobilization requirements are met, consideration should also be given to stockpiling strategic materials to the extent that such stockpiling is economical and feasible;

"(3) in the construction of any Government-owned industrial facility, in the rendition of any Government financial assistance for the construction, expansion, or improvement of any industrial facility, and in the production of goods and services, under this or any other Act, each department and agency of the executive branch should apply, under the coordination of the Federal Emergency Management Agency, when practicable and consistent with existing law and the desirability for maintaining a sound economy, the principle of the geographic dispersal of such facilities in the interest of national defense, except that nothing in this paragraph shall preclude the use of existing industrial facilities;

"(4) to ensure the adequacy of productive capacity and supply, executive agencies and departments responsible for defense acquisition should continuously assess the capability of the domestic defense industrial base to satisfy peacetime requirements as well as increased mobilization production requirements, specifically evaluating the availability of adequate production sources, including subcontractors and suppliers, materials, skilled labor, and professional and technical personnel;

"(5) every effort should be made to foster cooperation between the defense and commercial sectors for research and development and for acquisition of materials, components, and equipment; and

"(6) plans and programs to carry out this section shall be undertaken with due consideration for promoting efficiency and competition.".

PART B—AMENDMENTS TO TITLE I OF THE DEFENSE PRODUCTION ACT

SEC. 111. STRENGTHENING OF DOMESTIC CAPABILITY AND ASSISTANCE FOR SMALL BUSINESSES.

Title I of the Defense Production Act of 1950 (50 U.S.C. App. 2071, et seq.) is amended by adding at the end the following new sections:

"SEC. 107. STRENGTHENING DOMESTIC CAPABILITY.

"(a) In General.—Utilizing the authority of title III of this Act or any other provision of law, the President may provide appropriate incentives to develop, maintain, modernize, and expand the productive capacities of domestic sources for critical components, critical technology items, and industrial resources essential for the execution of the national security strategy of the United States.

"(b) Critical Components and Critical Technology Items.—

"(1) Identification.—

"(2) Maintenance of reliable sources of supply.—The President shall take appropriate actions to assure that critical components or critical technology items are available from reliable sources when needed to meet defense requirements during peacetime, graduated mobilization, and national emergency.

"(3) Appropriate action.—For purposes of this subsection, appropriate action may include—

"(A) restricting contract solicitations to reliable sources;

"(B) restricting contract solicitations to domestic sources pursuant to—

"(i) section 2304(b)(1)(B) or section 2304(c)(3) of title 10, United States Code;

"(ii) section 303(b)(1)(B) or section 303(c)(3) of the Federal Property and Administrative Services Act of 1949; or

"(iii) other statutory authority;

"(C) stockpiling critical components; and

"(D) developing substitutes for a critical component or a critical technology item.

"SEC. 108. MODERNIZATION OF SMALL BUSINESS SUPPLIERS.

"(a) In General.—In providing any assistance under this Act, the President shall accord a strong preference for small business concerns which are subcontractors or suppliers, and, to the maximum extent practicable, to such small business concerns located in areas of high unemployment or areas that have demonstrated a continuing pattern of economic decline, as identified by the Secretary of Labor.

"(b) Modernization of Equipment.—

"(1) In general.—Funds authorized under title III may be used to guarantee the purchase or lease of advance manufacturing equipment, and any related services with respect to any such equipment for purposes of this Act.

"(2) Small business suppliers.—In considering proposals for title III projects under paragraph (1), the President shall provide a strong preference for proposals submitted by a small business supplier or subcontractor whose proposal—

"(A) has the support of the department or agency which will provide the guarantee;

"(B) reflects that the small business concern has made arrangements to obtain qualified outside assistance to support the effective utilization of the advanced manufacturing equipment being proposed for installation; and

"(C) meets the requirements of section 301, 302, or 303.".

SEC. 112. LIMITATION ON ACTIONS WITHOUT CONGRESSIONAL AUTHORIZATION.

Section 104 of the Defense Production Act of 1950 (50 U.S.C. App. 2074) is amended to read as follows:

"SEC. 104. LIMITATION ON ACTIONS WITHOUT CONGRESSIONAL AUTHORIZATION.

"(a) Wage or Price Controls.—No provision of this Act shall be interpreted as providing for the imposition of wage or price controls without the prior authorization of such action by a joint resolution of Congress.

"(b) Chemical or Biological Weapons.—No provision of title I of this Act shall be exercised or interpreted to require action or compliance by any private person to assist in any way in the production of or other involvement in chemical or biological warfare capabilities, unless authorized by the President (or the President's designee who is serving in a position at level I of the Executive Schedule in accordance with section 5312 of title 5, United States Code) without further redelegation.".

(c) PURCHASES AND PURCHASE COMMITMENTS.—

(1) IN GENERAL.—Section 303(a) of the Defense Production Act of 1950 (50 U.S.C. App. 2093(a)) is amended to read as follows:

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

TITLE I—AMENDMENTS TO THE DEFENSE PRODUCTION ACT OF 1950

Part A—Declaration of policy

SECTION 101: DECLARATION OF POLICY

Senate bill (Sec. 101)

Section 101 amends section 2 of the Defense Production Act (DPA) to emphasize that the overall health of the industrial and technology base affects the Nation's capacity to meet not only the demands of war or national emergency but also to more effectively meet peacetime defense requirements. Efforts to ensure adequate productive capacity to meet the broad range of national defense requirements should include: provision for a graduated response to threatening situations; a coordinated, on-going assessment by federal agencies and departments of the ability of the domestic industrial and technology base to meet civilian and military needs; encouragement of the ability of U.S. industry to produce internationally competitive products; efforts to reduce the growing dependence of domestic industry on foreign sources for critical components and materials; and the geographic dispersal of industrial facilities.

House amendments (Sec. 101)

Section 101 amends section 2 of the Defense Production Act to emphasize that the overall health of the industrial and technology base affects the Nation's capacity to meet not only the demands of war or national emergency but also to more effectively meet peacetime defense requirements. Efforts to ensure productive capacity to meet the broad range of national defense requirements should include: provision for a graduated response to threatening situations; a coordinated, on-going assessment by federal agencies and departments of the ability of the domestic industrial and technology base to meet civilian and military needs; encouragement of the ability of U.S. industry to produce internationally competitive products; efforts to reduce the growing dependence of domestic industry on foreign sources of critical components and materials. Efforts to ensure productive capacity must also include the geographic dispersal of industrial facilities. This policy declaration furthermore urges that domestic energy supplies reserved for defense needs include renewable energy sources as well as energy conservation measures.

Conference agreement

Senate recedes to the House with an amendment that clarifies the House language and deletes provisions conflicting with existing law or regulation and provisions superseded by recently enacted law.

Part B—Amendments to title I of the Defense Production Act

SECTION 111: STRENGTHENING OF DOMESTIC CAPABILITY AND ASSISTANCE FOR SMALL BUSINESSES

Senate bill (Sec. 111)

Section 111 adds a new section 107 to Title I of the Defense Production Act. The new section establishes a policy for ensuring availability of critical components and critical technology items essential for execution of the national security strategy. Section 107(a) requires the President, acting through the Secretary of Defense and utilizing the Defense Industrial Base Information System established under section 722 of the DPA, to identify critical components and critical technology items and to annually publish an unclassified version of the list. The President is granted the authority to limit production of critical components or technology items to domestic sources within five years. The President is also authorized to use programs available under Title III of the DPA to assist in the maintenance, establishment, expansion or modernization of domestic production of a critical component or technology item. In addition, this section authorizes the President to stockpile critical components and technology items that cannot be acquired from domestic sources.

Section 111 also adds a new section 107(d)(2) to the Defense Production Act, which states that in providing assistance under Title III, the President shall accord a strong preference to small businesses operating in an industry critical to national security.

House amendment (Sec. 111)

Section 111 adds two new sections to Title I of the Defense Production Act. New section 107 requires the Secretary of Defense to identify critical components essential to national security in peacetime and during graduated mobilization, and to take appropriate actions to protect against unreliable sources for those components. Among the appropriate actions are sourcing from domestic and reliable foreign sources, stockpiling critical components, developing substitutes, or other measures. At a minimum, section 107 requires that critical components shall be identified for all items on the CINC's (Commanders'-in-Chief) Critical Items List, and requires the Department of Defense to take into account components identified as critical by a National Security Assessment or by a Presidential determination under section 232 of the Trade Expansion Act of 1962.

New section 108 requires the President to provide a strong preference to small businesses, especially small businesses in areas of high unemployment or economic decline (as defined by the Secretary of Labor), when providing assistance under the Act. This section also authorizes Title III funds to be set-aside to guarantee the purchase or lease of advanced manufacturing equipment, according a strong preference to applications from smaller subcontractors. These smaller subcontractors must have obtained the recommendation of an agency of the Department of Defense or the Department of Commerce or the Small Business Administration, and must have arranged to obtain management assistance services in connection with the installation of the advanced manufacturing equipment.

Conference agreement

Senate recedes to the House with an amendment that clarifies statutory language.

SECTION 112: LIMITATION ON ACTIONS WITHOUT CONGRESSIONAL AUTHORIZATION

Senate bill (Sec. 112)

Section 112 amends section 104(a) of the Defense Production Act to prohibit the imposition of wage and price controls without prior Congressional authorization.

Section 112 also amends section 104(b) of the Defense Production Act to provide that such Act may not be used to assist in the production of chemical or biological weapons, except in times of war or national emergency as declared by Congress or upon nondelegable written authorization by the President.

House amendment (Sec. 112)

The amendments made to section 104(a) of the DPA is identical to the Senate provision. The amendment made to section 104(b) of the DPA is essentially identical to the Senate provision, except that it permits unlimited redelegation of the authority conferred upon the President.

Conference agreement

Senate recedes to the House with an amendment permitting Presidential delegation only to an official holding a position at Level I of the Executive Schedule, i.e., Departmental Secretary or equivalent.

Part C—Amendments to title III of the Defense Production Act

SECTION 121: EXPANDING THE REACH OF EXISTING AUTHORITIES UNDER TITLE III

Senate bill (Sec. 121)

Subsection 121(a) broadens the Defense Production Act's current loan guarantee authority provided under section 301 to be used with respect to "critical technology items", "industrial resources" and "services". The subsection also increases from $25 to $50 million the threshold at which an otherwise eligible project must obtain specific Congressional authorization prior to being eligible for funding under the Act. The provision also broadens the existing waiver authority.

Subsection 121(b) broadens the Act's loan authority under section 302 of the DPA in the same manner subsection(a) expands section 301 of the act.

Section 121(c) extends the Act's purchase guarantee authority under section 303 of the DPA in the same manner as subsections(a) and (b) expand the effectiveness of section 301 and section 302. This subsection also substitutes a ten-year limit on loan authority for the current fixed expiration date (September 30, 1995).

House amendment (Sec. 121)

Subsection 121(a) of the House Amendment adopts the text of the Senate bill broadening the Act's current loan guarantee authority provided under section 301, with additions. Most notably, section 301 of the DPA would allow the President, in times when there is no national emergency, to permit a guarantee if the President determines that there is not enough domestic industrial capacity currently to satisfy both defense and expected nondefense demands.

Subsection 121(b) broadens the Act's loan authority under section 302 of the DPA in the same manner subsection (a) expands section 301 of the Act. Specifically, it allows the President, in times when there is no national emergency, to permit a loan if the President determines that there is not enough domestic industrial capacity currently to satisfy both defense and expected non-defense demands.

Subsection 121(c) broadens the Act's purchase guarantee authority under section 303 of the DPA in the same manner subsections (a) and (b) expand section 301 and section 302. Again, the amendment would specifically authorize the President, in times when there is no national emergency, to permit a purchase guarantee if the President determines that there is not enough domestic industrial capacity currently to satisfy both defense and expected non-defense demands.

Subsection 121(d) amends current law to allow the President, if he determines it will aid the national defense, to provide for the production readiness of critical technology products and processes.

Conference agreement

Senate recedes to the House with a technical amendment substituting defined terms for undefined terms in the House amendment. The conferees intend that the authorities under those provisions be utilized to ensure the availability from domestic sources of critical technologies essential to the national defense. Among such technologies are gallium arsenide, single crystal silicone, active matrix liquid crystal displays, and machine tool controllers.

SECTION 122: DEFENSE PRODUCTION ACT FUND

Senate bill (Sec. 122)

Section 122 establishes the Defense Production Act Fund as a separate fund within the Treasury. The manager of the Fund would be designated by the Secretary of the Treasury. The provision would cap the Fund balance at $250 million excluding any monies appropriated to the Fund during the current fiscal year. This section provides the formula for determining the total amount of the Fund's contingent liabilities.

House amendment (Sec. 122)

Section 122 establishes the Defense Production Act Fund as a separate fund within the Treasury. The manager of the Fund would be designated by the Secretary of Defense. The provision would cap the Fund balance at $400 million excluding any monies appropriated to the Fund during the current fiscal year. In addition, the manager of the fund would have to give full financial income disclosure, subject to Federal financial disclosure laws. The manager must also give a statement every year that there is no conflict of interest between the position of Fund manager and the private sector.

Conference agreement

Senate recedes to the House with an amendment. Under the conference agreement the manager of the Fund is to be designated by the President. The conference agreement also eliminates the disclosure requirement in the House amendment affecting employees of the Fund and other "involved persons" because it duplicates generally applicable disclosure requirements for federal employees.

SECTION 123: DECLARATION OF OFFSET POLICY

Senate bill (Sec. 123)

Section 123 amends section 309 of the DPA to codify the President's Policy on Offsets in Military Exports, issued on April 16, 1990. This offset policy was issued pursuant to section 825 of the "National Defense Authorization Act, Fiscal Year 1989", Public Law 100–456. Additional discussion of this provision can be found in the report of the Committee on Banking, Housing and Urban Affairs, United States Senate accompanying S. 1379, the "Defense Production Amendments of 1990" (S. Rept. 101–368).

The section states that it is the policy of the U.S. Government that offsets for military exports are inefficient and market distorting, and therefore no agency of the U.S. Government shall encourage, finance, enter directly into, or commit U.S. firms to any offset arrangement. Offset obligations incurred through international agreements entered into before October 20, 1990 are exempted.

House amendment (Sec. 123)

The House amendment also enacts the President's offset policy in statute, but as an uncodified declaration of Congressional policy.

Conference agreement

Senate recedes to the House.

SECTION 124: ANNUAL REPORT ON IMPACT OF OFFSETS

Senate bill (Sec. 124)

Section 124 amends section 309 of the Defense Production Act, which requires the President to annually prepare and submit a report on the impact of offsets on defense preparedness, industrial competitiveness, employment, and trade to the Senate and House Banking committees. The section specifies the Secretary of Commerce as the President's "Executive Agent" for carrying out the duties of section 309. It restructures the existing requirements of section 390(b), while adding specific reference to the Secretary of Commerce as the Executive Branch official exercising leadership and direction in the process of developing the required report.

The section adds a new subsection (d) to section 309, which requires that a notice be furnished regarding any offset agreement exceeding $5 million. The notice requirement is an "after the fact" notice, not a prior approval requirement. The provision does not designate the specific Government official to receive the notice, such designation is left to the implementing regulations. The information submitted pursuant to this provision is accorded protection from public disclosure, unless authorized by the firm providing the information.

The section adds a new subsection (e) (Contents of the Report) modifying existing procedures relating to the report's preparation. This subsection makes clear that any alternative findings or recommendations submitted by an agency participating in the interagency task force shall be included in the report.

Subsection (f) (Utilization of Annual Report in Negotiations) continues the existing requirements of Section 309 of the Act relating to the report's subsequent use in bilateral and multilateral negotiations to minimize the adverse effects of offsets.

Additional discussion of this provision can be found in the report of the Committee on Banking, Housing and Urban Affairs, United

States Senate accompanying S. 1379, the "Defense Production Amendments of 1990" (S. Rpt. 101–368).

House amendment (Sec. 124)

Section 124 of the House amendment is substantially identical to the Senate provision.

Conference agreement

Senate recedes to the House.

SECTION 125: CIVIL-MILITARY INTEGRATION

Senate bill

No provision.

House amendment (Sec. 125)

Section 125 adds a new section 310 to Title III of the Defense Production Act. The new section states that an important factor in the management of Title III programs is to ensure that production capacity will be economically viable after guarantees and other authorized assistance have expired.

Conference agreement

Senate recedes to the House.

SECTION 126: TESTING, QUALIFICATION, AND USE OF INDUSTRIAL RESOURCES DEVELOPED UNDER TITLE III PROJECTS

Senate bill

No provision.

House amendment (Sec. 126)

Section 126 adds a new section 311 to Title III of the Defense Production Act. This new section requires the President, within one year after enactment, to test for qualification for defense-related use all materials being manufactured under the purchase and loan guarantee provisions of 301, 302, or 303. The section also required the President to provide that these materials are used in current and future weapon systems and development programs.

Conference agreement

Senate recedes to the House with an amendment. The conference amendment requires the establishment of procedures for the testing and qualification of all industrial resources being manufactured under the purchase and loan guarantee provisions of sections 301, 302, and 303. Upon qualification, the industrial resource would be eligible for use in the development and manufacture of a major system or other items of supply being undertaken by a federal agency. The conference agreement requires testing and qualification only upon the request of the contractor. To prevent the costs of testing and qualification from being an obstacle in requires that the costs be borne by the federal agency. Implementation shall be on a Government-wide basis though the Federal Acquisition Regulation.

Part D—Amendments to title VII of the Defense Production Act

SECTION 131: SMALL BUSINESS

Senate bill (Sec. 131)

Section 131 modernizes the language of section 701 of the Defense Production Act relating to the treatment of small business concerns. It directs that small business concerns be given the maximum practicable opportunity to participate in all programs undertaken pursuant to this Act. Applications, requests, or appeals from small business concerns are to be expeditiously handled, and information about DPA programs and activities are to be made available to small firms. Finally, small business concerns must be given a fair share of any allocations of materials authorized under DPA section 101, to the extent practicable.

House amendment (Sec. 131)

Section 131 of the House amendment adopts the Senate provision, but makes explicit that small business concerns include small business owned by women and minorities.

Conference agreement

Senate recedes to the House with an amendment adding in section 132 a definition of "small business concern" which includes disadvantaged small business concerns and women-owned small business concerns.

SECTION 132: DEFINITIONS

Section 132 provides definitions of: "critical component", "critical industry for national security", "critical technology", "critical technology item", "defense contractor", "domestic defense industrial base", "domestic source", "facilities", "foreign source", "industrial resources", "materials", "national defense", "person", and "services".

Conference agreement

SECTION 133: APPOINTMENT OF PERSONNEL

Senate bill (Sec. 133)

Section 133 of the Senate bill is a modernized version of the Defense Production Act's current section 703, relating to the President's authority under the Act to delegate authority, create agencies, and appoint and fix the compensation of civilian personnel free of the constraints of the Civil Service System. Section 703 is also amended regarding delegation of those authorities. The authorities conferred upon the President by the Act may be delegated only to a Government civilian officer appointed with the advice and consent of the Senate. Except for the authorities conferred by Title I of the Act, further delegation of those authorities by such Senatorially-confirmed officer is limited to civil servants who are members of the Senior Executive Service or to military officers of general or flag officer rank. No redelegation of the policy making authorities related to Title I is authorized by any Senatorially-confirmed officer. The limitation on the delegation of Title I authority applies to the making of the policies relating to the exercise of such authorities and not to execution of those policies relating to individual contract action.

House amendment

No provision.

Conference agreement

The House recedes to the Senate with an amendment which deletes the Senate provision relating to the delegation of Presidential authorities under the Defense Production Act.

SECTION 134: REGULATIONS AND ORDERS

Senate bill (Sec. 134)

Section 134 offers a simplified version of the Defense Production Act's current section 704, relating to regulatory implementation of the Act's authorities.

House amendment (Sec. 133)

Section 133 limits the President's authority to issue any regulation that is inconsistent with the Government-wide procurement regulation, the Federal Acquisition Regulation (FAR).

Conference agreement

Senate recedes to the House with an amendment to require that any regulation, procedure or form issued by the President to carry out the Act shall conform with any Government-wide procurement policy or regulation issued pursuant to sections 6 or 25 of the Office of Federal Procurement Policy Act.

SECTION 135: INFORMATION ON THE DEFENSE INDUSTRIAL BASE

Senate bill (Sec. 136)

Section 136 requires the President to establish a modern information system for purposes of making possible effective management of defense production during peacetime and wartime situations. It requires the President to establish a systematic and a continuously updating information system on the defense industrial base and to draw upon such information in exercising Title I and Title III authorities to maintain domestic capabilities in critical components and critical technology items. Specifically, it establishes three data collection procedures which: (a) identify foreign dependencies and other potential production stopping problems; (b) provide defense production base analyses of the entire production chain of six weapons systems (two for each Military Service); and (c) improve the level of detail, timeliness and availability of input/output analyses to the Department of Defense derived from the Census of Manufacturers.

This section requires the President to use data collection procedures to establish by December 31, 1993 a strategic plan for developing a comprehensive information system in the most cost-effective manner possible. Such a plan must be submitted to Congress.

A biennial report to Congress on the subcontractor and supplier base must include: (a) a list of critical components, critical technologies and critical technology items in which there is inadequate industrial capacity or capability for purposes of defense preparedness; and (b) an assessment of the subcontractor and supplier base supporting production of any critical component, technology or technology item for which there is inadequate industry capacity.

An authorization of $10 million is provided over three years for implementation of this section, to remain available until expended. The funds authorized by this section shall be in addition to any other funds authorized for information on the defense industrial base, including DINET, and the six production base analyses authorized in this section shall be paid for solely by these funds.

House amendment (Sec. 134)

Section 134 of the House amendment is substantially identical to the Senate provision.

Conference agreement

Senate recedes to the House with an amendment that clarifies the House amendment, and adjusts the dates for submission of the strategic plan for the comprehensive information system and report on the subcontractor and supplier base. The conference agreement deletes any separate authorization of appropriations for the conduct of the activities specified. The activities are to be conducted with resources authorized and appropriated for the management of the agencies involved.

SECTION 136: PUBLIC PARTICIPATION IN RULEMAKING

Senate bill (Sec. 137)

The Senate bill amends section 709 of the Defense Production Act, which exempts regulations implementing the Act from the notice and comment provisions of the Administrative Procedure Act, but requires publication of an agency statement that interested parties were consulted in the formulation of the regulation. The Senate provision would similarly exempt the Act's implementing regulations from the notice and comment provisions of the Administrative Procedure Act. It would, however, make any regulation subject to the publication and comment procedures, as required by section 22 of the Office of Federal Procurement Policy Act, to assure adequate public review and participation in rulemaking. These procedures may be waived for temporary orders and regulations if a finding is published stating that urgent and compelling circumstances make compliance impracticable. Judicial review under the Administrative Procedure Act is not applicable. This section shall have no retroactive application.

House amendment (Sec. 135)

Section 135 of the House amendment is identical to the Senate provision.

Conference agreement

The conference agreement incorporates a modification deleting any reference to "orders" to make explicit that any "orders" issued pursuant to other provisions of the Act or "Executive Orders" issued by the President are not covered by this requirement for public participation.

Subpart E—Research and Demonstration Provisions

SEC. 1381. MEASUREMENT AND REPORTING OF WELFARE DEPENDENCY.

(a) FINDINGS.—The Congress finds:

(1) In the period since 1960 the average annual caseload of the aid to families with dependent children (AFDC) program under title IV of the Social Security Act has quintupled.

(2) In 1990 there were on average almost twice as many households receiving aid to families with dependent children payments as the number of households and individuals receiving unemployment compensation benefits.

(3) Nearly one-quarter of children born in the period 1967 through 1969 were on welfare (AFDC) before reaching age 18. For minority children this ratio approached three-quarters.

(4) At any given time one-quarter of school children are from single parent families, or households with neither parent. The National Assessment of Educational Progress has documented the educational losses associated with single parent or no parent households.

(5) Only one-quarter of father-absent families receive full child support and over one-half receive none.

(6) The average aid to families with dependent children benefit has declined by more than one-third since 1960.

(7) The burden of welfare dependency is an issue of necessary concern to women, who in overwhelming proportion are the heads of single parent families.

(8) The rate of welfare dependency may be rising. However, the statistical basis on which to assess this national issue is wholly inadequate, much as the statistical basis for addressing issues of unemployment was inadequate prior to the Employment Act of 1946, which required the creation of the annual economic report of the President and the development of unemployment rates.

(b) CONGRESSIONAL POLICY.—The Congress hereby declares that—

(1) it is the policy and responsibility of the Federal Government to reduce welfare dependency to the lowest possible level, and to assist families toward self-sufficiency, consistent with other essential national goals;

(2) it is the policy of the United States to strengthen families, to ensure that children grow up in families that are economically self-sufficient and to underscore the responsibility of parents to support their children;

(3) the Federal Government should help welfare recipients as well as individuals at risk of welfare dependency to improve their education and job skills, to obtain access to necessary support services, and to take such other steps as may assist them to meet their responsibilities to become financially independent; and

(4) it is the purpose of this section to aid in lowering welfare dependency by providing the public with generally accepted measures of welfare dependency so that it can track dependency over time and determine whether progress is being made in reducing welfare dependency and enabling families to be self-sufficient.

(c) DEVELOPMENT OF WELFARE DEPENDENCY INDICATORS, RATES, AND PREDICTORS.—

(1) IN GENERAL.—The Secretary of Health and Human Services (in this section referred to as the "Secretary") in consultation with the Secretary of Agriculture shall develop indicators, rates, and predictors of welfare dependency.

(2) DEVELOPMENT.—The Secretary shall—

(A) develop—

(i) indicators and rates related to the level of welfare dependency in the United States; and

(ii) predictors that are correlated with welfare dependency;

(B) assess the data needed to report annually on the indicators, rates, and predictors, including the ability of existing data collection efforts to provide such data and any additional data collection needs; and

(C) not later than 2 years after the date of the enactment of this section, provide an interim report containing conclusions resulting from the development and assessment described in subparagraphs (A) and (B), to—

(i) the Committee on Ways and Means of the House of Representatives;

(ii) the Committee on Education and Labor of the House of Representatives;

(iii) the Committee on Agriculture of the House of Representatives;

(iv) the Committee on Energy and Commerce of the House of Representatives;

(v) the Committee on Finance of the Senate;

(vi) the Committee on Labor and Human Resources of the Senate; and

(vii) the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(3) CONSIDERATIONS.—In developing the indicators, rates, and predictors, the Secretary shall consider the complexity of patterns of welfare dependency and self-sufficiency attainment, and the external factors, including the economy, that affect welfare dependency.

(d) ADVISORY BOARD ON WELFARE DEPENDENCY.—

(1) ESTABLISHMENT.—There is established an Advisory Board on Welfare Dependency (in this section referred to as the "Board").

(2) COMPOSITION.—The Board shall be composed of 12 members with equal numbers to be appointed by the House of Representatives, the Senate, and the President. The Board shall be composed of experts in the fields of welfare research and statistical methodology, representatives of State and local welfare agencies, and organizations concerned with welfare issues.

(3) VACANCIES.—Any vacancy occurring in the membership of the Board shall be filled in the same manner as the original appointment for the position being vacated. The vacancy shall not affect the power of the remaining members to execute the duties of the Board.

(4) DUTIES.—Duties of the Board shall include—

(A) providing advice and recommendations to the Secretary on the development of indicators, rates, and predictors of welfare dependency, and the identification of data collection needs and existing data collection efforts, described in subsection (c)(2)(B); and

(B) providing advice on the development and presentation of the annual report on welfare dependency indicators, rates, and predictors required under subsection (e).

(5) TRAVEL EXPENSES.—Members of the Board shall not be compensated, but shall receive travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, for each day the member is engaged in the performance of duties away from the home or regular place of business of the member.

(6) DETAIL OF FEDERAL EMPLOYEES.—The Secretary shall detail, without reimbursement, any of the personnel of the Department of Health and Human Services to the Board to assist the Board in carrying out its duties. Any detail shall not interrupt or otherwise affect the civil service status or privileges of the Federal employee.

(7) VOLUNTARY SERVICE.—Notwithstanding section 1342 of title 31, United States Code, the Board may accept the voluntary services provided by a member of the Board.

(8) TERMINATION OF BOARD.—The Board shall be terminated at such time as the Secretary determines the duties described in subsection (d)(4) have been completed, but in any case prior to the submission of the first report required under subsection (e).

(e) ANNUAL WELFARE DEPENDENCY REPORT.—

(1) PREPARATION.—The Secretary shall prepare an annual report on welfare dependency in the United States. The report shall attempt to identify indicators, rates, and predictors of welfare dependency and trends in dependency, and provide information and analysis on the causes of dependency.

(3) CONTENTS.—Each report shall set forth—

(ii) a description of the interactions among the programs;

(D) in the case of the second, or a subsequent, report, changes in the information described in subparagraphs (A) through (C) from the previous year, and trends in program participation;

(E) annual numerical goals for recipients, and expenditures, within each program and within significant subgroups within the population, for the calendar year in which the report is transmitted and for each of the following 4 calendar years, which goals shall, consistent with other essential national goals, reflect the objectives of—

(i) reducing welfare dependency to the lowest possible level; and

(ii) increasing family self-sufficiency at or above the Federal poverty level to the greatest extent possible;

(F)(i) the programs and policies as the Secretary, in consultation with the Board, determines are necessary to meet the goals for each of the 5 years; and

(ii) such recommendations for legislation, which shall not include proposals to reduce eligibility levels or impose barriers to program access, as the Secretary may determine to be necessary or desirable to reduce welfare dependency; and

(G) interim goals for reducing the proportion of children, and families with children, who are recipients of aid to families with dependent children to 10 percent of families with children, adjusted for economic conditions.

(4) SUBMISSION.—The Secretary shall submit such a report not later than 3 years after the date of the enactment of this section, and annually thereafter, to the committees specified in subsection (c)(2)(C). The report shall be transmitted during the first 60 days of each regular session of Congress.

"(1) CERTAIN DEDUCTIONS NOT ALLOWED.—The following deductions shall not be allowed:

"(A) The deduction for personal exemptions provided in section 151.

"(B) The net operating loss deduction provided in section 172.

"(C) The additional itemized deductions for individuals provided in part VII of subchapter B (other than section 212 thereof).

"(3) COORDINATION WITH SECTION 67.—In lieu of applying section 67, 70 percent of the amount of the miscellaneous itemized deductions shall be disallowed.

"(c) SPECIAL RULES FOR INCOME FROM DISCHARGE OF INDEBTEDNESS.—If a large partnership has income from the discharge of any indebtedness—

"(1) such income shall be excluded in determining the amounts referred to in section 772(a), and

"(2) in determining the income tax of any partner of such partnership—

"(A) such income shall be treated as an item required to be separately taken into account under section 772(a), and

"(B) the provisions of section 108 shall be applied without regard to this part.

"(a) TREATMENT OF CERTAIN OPTIONAL ADJUSTMENTS, ETC.—In the case of a large partnership—

"(1) computations under section 773 shall be made without regard to any adjustment under section 743(b) or 108(b), but

"(2) a partner's distributive share of any amount referred to in section 772(a) shall be appropriately adjusted to take into account any adjustment under section 743(b) or 108(b) with respect to such partner.

"(b) DEFERRED SALE TREATMENT OF CONTRIBUTED PROPERTY.—

"(1) TREATMENT OF PARTNERSHIP.—In the case of any contribution of property to which this subsection applies—

"(B) section 704(c) shall not apply to such property, and

"(C) section 737 shall not apply.

"(2) TREATMENT OF CONTRIBUTING PARTNER.—

"(A) IN GENERAL.—In the case of any partner who makes a contribution of property to which this subsection applies—

"(i) such partner shall recognize the precontribution gain or loss from such property as provided in this paragraph, and

"(ii) appropriate adjustments to the basis of such partner's interest in the partnership shall be made for the amounts recognized under this paragraph.

"(B) CHARACTER.—The character of any gain or loss recognized under this paragraph shall be determined by reference to the character which would have resulted if the property had been sold to the partnership at the time of the contributions; except that any gain or loss recognized under subparagraph (C)(i) shall be treated as ordinary income or loss, as the case may be.

"(C) TRANSACTIONS AT PARTNERSHIP LEVEL.—

"(i) DEPRECIATION, ETC.—If any partnership deduction for depreciation, depletion, or amortization is increased by reason of an increase in the basis of any property under paragraph (1), the contributing partner shall recognize so much of the precontribution gain with respect to such property as does not exceed the increase in such deduction. If there is a precontribution loss, a similar rule shall apply to any decrease in such a deduction.

"(ii) DISPOSITIONS.—

"(I) IN GENERAL.—Except as otherwise provided in this clause, any precontribution gain or loss with respect to any property (to the extent not previously taken into account under this paragraph) shall be recognized by the contributing partner if the partnership makes any disposition of the property.

"(II) DISTRIBUTIONS TO CONTRIBUTING PARTNER.—No gain or loss shall be recognized under subclause (I) by reason of any distribution of the contributed property to the contributing partner (and subparagraph (D)(ii) shall not apply to any such distribution). In any such case, no adjustment shall be made under section 734 on account of such distribution and the adjusted basis of such property in the hands of the contributing partner shall be its adjusted basis immediately before the contribution properly adjusted for gain or loss previously recognized under this paragraph. If the property distributed consists of an interest in an entity, this subclause shall not apply to the extent that the value of such interest is attributable to property contributed to such entity after such interest had been contributed to the partnership.

"(iii) YEAR FOR WHICH AMOUNT TAKEN INTO ACCOUNT.—Any amount recognized under this subparagraph shall be taken into account for the partner's taxable year in which or with which ends the partnership taxable year of the deduction or disposition.

"(D) TRANSACTIONS AT PARTNER LEVEL.—

"(i) IN GENERAL.—If the contributing partner makes a disposition of any portion of his interest in the partnership, a corresponding portion of any precontribution gain or loss which was not previously taken into account under this

paragraph shall be recognized for the partner's taxable year in which the disposition occurs. The preceding sentence shall not apply to a disposition at death.

"(ii) TREATMENT OF CERTAIN DISTRIBUTIONS.—If—

"(I) the amount of cash and the fair market value of property distributed to a partner, exceeds

"(II) the adjusted basis of such partner's interest in the partnership immediately before the distribution (determined without regard to any adjustment under subparagraph (A)(ii) resulting from such distribution),

the contributing partner shall recognize so much of any precontribution gain as does not exceed such excess.

"(iii) SPECIAL RULE.—Except as provided in clause (ii)(II), any basis adjustment under subparagraph (A)(ii) resulting from any gain or loss recognized under this subparagraph shall be treated as occurring immediately before the disposition or distribution involved.

"(E) SECTION 267 AND 707(b) PRINCIPLES TO APPLY.—No loss shall be recognized under subparagraph (C)(ii) or (D) by reason of any disposition (directly or indirectly) to a person related (within the meaning of section 267(b) or 707(b)(1)) to the contributing partner.

"(F) TREATMENT OF CERTAIN NONTAXABLE EXCHANGES.—

"(i) SECTION 1031 AND 1033 TRANSACTIONS.—If the disposition referred to in subclause (I) of subparagraph (C)(ii) is an exchange described in section 1031 or a compulsory or involuntary conversion within the meaning of section 1033—

"(I) the amount of gain or loss recognized by the contributing partner under such subclause (I) shall not exceed the gain or loss recognized by the partnership on the disposition, and

"(II) the replacement property shall be treated as the contributed property for purposes of this paragraph.

For purposes of the preceding sentence, the term 'replacement property' means the property the basis of which is determined under section 1031(d) or 1033(b), whichever is applicable.

"(ii) CONTRIBUTIONS TO CONTROLLED PARTNERSHIP.—If the disposition referred to in subclause (I) of subparagraph (C)(ii) is a contribution of the property to another partnership which is a controlled partnership—

"(I) the rules of subclause (I) of clause (i) shall apply, and

"(II) the partnership shall be treated as continuing to hold the contributed property so long as the other partnership continues to be a controlled partnership and continues to hold such property.

For purposes of the preceding sentence, the term 'controlled partnership' means any partnership in which the partnership making the disposition owns more than 50 percent of the capital interest or profits interest.

"(3) PRECONTRIBUTION GAIN OR LOSS.—For purposes of this subsection—

"(A) PRECONTRIBUTION GAIN.—The term 'precontribution gain' means the excess (if any) of—

"(i) the fair market value of the contributed property as of the time of the contribution, over

"(ii) the adjusted basis of such property immediately before such contribution.

"(B) PRECONTRIBUTION LOSS.—The term 'precontribution loss' means the excess (if any) of the amount referred to in clause (ii) of subparagraph (A) over the amount referred to in clause (i) of subparagraph (A).

"(4) CONTRIBUTIONS TO WHICH SUBSECTION APPLIES.—This subsection shall apply to any contribution of property (other than cash) which is made by any partner to a partnership if—

"(A) as of the time of such contribution, such partnership is a large partnership, or

"(B) such contribution is to a partnership reasonably expected to become a large partnership.

This subsection shall not apply to any contribution made before the date of the enactment of this part.

"(c) CREDIT RECAPTURE DETERMINED AT PARTNERSHIP LEVEL.—

"(1) IN GENERAL.—In the case of a large partnership—

"(A) any credit recapture shall be taken into account by the partnership, and

"(B) the amount of such recapture shall be determined as if the credit with respect to which the recapture is made had been fully utilized to reduce tax.

"(2) METHOD OF TAKING RECAPTURE INTO ACCOUNT.—A large partnership shall take into account a credit recapture by reducing the amount of the appropriate current year credit to the extent thereof, and if such recapture exceeds the amount of such current year credit, the partnership shall be liable to pay such excess.

"(3) DISPOSITIONS NOT TO TRIGGER RECAPTURE.—No credit recapture shall be required by reason of any transfer of an interest in a large partnership.

"(4) CREDIT RECAPTURE.—For purposes of this subsection, the term 'credit recapture' means any increase in tax under section 42(j) or 50(a).

"(2) Any credit or refund under section 852(b)(3)(D).

"(f) TREATMENT OF REMIC RESIDUALS.—For purposes of applying section 860E(e)(6) to any large partnership—

"(1) all interests in such partnership shall be treated as held by disqualified organizations,

"(2) in lieu of applying subparagraph (C) of section 860E(e)(6), the amount subject to tax under section 860E(e)(6) shall be excluded from the gross income of such partnership, and

"(3) subparagraph (D) of section 860E(e)(6) shall not apply.

"(g) SPECIAL RULES FOR APPLYING CERTAIN INSTALLMENT SALE RULES.—In the case of a large partnership—

"(1) the provisions of sections 453(l)(3) and 453A shall be applied at the partnership level, and

"(2) in determining the amount of interest payable under such sections, such partnership shall be treated as subject to tax under this chapter at the highest rate of tax in effect under section 1 or 11.

"SEC. 775. LARGE PARTNERSHIP.

"(a) GENERAL RULE.—For purposes of this part—

"(1) IN GENERAL.—Except as otherwise provided in this section or section 776, the term 'large partnership' means, with respect to any partnership taxable year, any partnership if the number of persons who were partners in such partnership in such taxable year or any preceding partnership taxable year ending on or after December 31, 1993, equaled or exceeded 250. To the extent provided in regulations, a partnership shall cease to be treated as a large partnership for any partnership taxable year if in such taxable year fewer than 100 persons were partners in such partnership.

"(2) ELECTION FOR PARTNERSHIPS WITH AT LEAST 100 PARTNERS.—If a partnership makes an election under this paragraph, paragraph (1) shall be applied by substituting '100' for '250'. Such an election shall apply to the taxable year for which made and all subsequent taxable years unless revoked with the consent of the Secretary.

"(b) SPECIAL RULES FOR CERTAIN SERVICE PARTNERSHIPS.—

"(1) CERTAIN PARTNERS NOT COUNTED.—For purposes of this section, the term 'partner' does not include any individual performing substantial services in connection with the activities of the partnership and holding an interest in such partnership, or an individual who formerly performed substantial services in connection with such activities and who held an interest in such partnership at the time the individual performed such services.

"(2) EXCLUSION.—For purposes of this part, the term 'large partnership' does not include any partnership if substantially all the partners of such partnership—

"(A) are individuals performing substantial services in connection with the activities of such partnership or are personal service corporations (as defined in section 269A(b)) the owner-employees (as defined in section 269A(b)) of which perform such substantial services,

"(B) are retired partners who had performed such substantial services, or

"(C) are spouses of partners who are performing (or had previously performed) such substantial services.

"(3) SPECIAL RULE FOR LOWER TIER PARTNERSHIPS.—For purposes of this subsection, the activities of a partnership shall include the activities of any other partnership in which the partnership owns directly an interest in the capital and profits of at least 80 percent.

"(c) EXCLUSION OF COMMODITY POOLS.—For purposes of this part, the term 'large partnership' does not include any partnership the principal activity of which is the buying and selling of commodities (not described in section 1221(1)), or options, futures, or forwards with respect to such commodities.

"(d) SECRETARY MAY RELY ON TREATMENT ON RETURN.—If, on the partnership return of any partnership, such partnership is treated as a large partnership, such treatment shall be binding on such partnership and all partners of such partnership but not on the Secretary.

"SEC. 776. SPECIAL RULES FOR PARTNERSHIPS HOLDING OIL AND GAS PROPERTIES.

"(a) EXCEPTION FOR PARTNERSHIPS HOLDING SIGNIFICANT OIL AND GAS PROPERTIES.—

"(1) IN GENERAL.—For purposes of this part, the term 'large partnership' shall not include any partnership if the average percentage of assets (by value) held by such partnership during the taxable year which are oil or gas properties is at least 25 percent. For purposes of the preceding sentence, any interest held by a partnership in another partnership shall be disregarded, except that the partnership shall be treated as holding its proportionate share of the assets of such other partnership.

"(2) ELECTION TO WAIVE EXCEPTION.—Any partnership may elect to have paragraph (1) not apply. Such an election shall apply to the partnership taxable year for which made and all subsequent partnership taxable years unless revoked with the consent of the Secretary.

"(b) SPECIAL RULES WHERE PART APPLIES.—

"(1) COMPUTATION OF PERCENTAGE DEPLETION.—In the case of a large partnership, except as provided in paragraph (2)—

"(A) the allowance for depletion under section 611 with respect to any partnership oil or gas property shall be computed at the partnership level without regard to any provision of section 613A requiring such allowance to be computed separately by each partner,

"(B) such allowance shall be determined without regard to the provisions of section 613A(c) limiting the amount of production for which percentage depletion is allowable and without respect to paragraph (1) of section 613A(d), and

"(C) paragraph (3) of section 705(a) shall not apply.

"(2) TREATMENT OF CERTAIN PARTNERS.—

"(A) IN GENERAL.—In the case of a disqualified person, the treatment under this chapter of such person's distributive share of any item of income, gain, loss, deduction, or credit attributable to any partnership oil or gas property shall be determined without regard to this part. Such person's distributive share of any such items shall be excluded for purposes of making determinations under sections 772 and 773.

"(B) DISQUALIFIED PERSON.—For purposes of subparagraph (A), the term 'disqualified person' means, with respect to any partnership taxable year—

"(i) any person referred to in paragraph (2) or (4) of section 613A(d) for such person's taxable year in which such partnership taxable year ends, and

"(ii) by treating 6,000 cubic feet of natural gas as a barrel of crude oil, and

"(iii) by treating as 1 person all persons treated as 1 taxpayer under section 613A(c)(8) or among whom allocations are required under such section.

"(a) GENERAL RULE.—A partner of any large partnership shall, on the partner's return, treat each partnership item attributable to such partnership in a manner which is consistent with the treatment of such partnership item on the partnership return.

"(b) UNDERPAYMENT DUE TO INCONSISTENT TREATMENT ASSESSED AS MATH ERROR.—Any underpayment of tax by a partner by reason of failing to comply with the requirements of subsection (a) shall be assessed and collected in the same manner as if such underpayment were on account of a mathematical or clerical error appearing on the partner's return. Paragraph (2) of section 6213(b) shall not apply to any assessment of an underpayment referred to in the preceding sentence.

"(c) ADJUSTMENTS NOT TO AFFECT PRIOR YEAR OF PARTNERS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), subsections (a) and (b) shall apply without regard to any adjustment to the partnership item under part II.

"(2) CERTAIN CHANGES IN DISTRIBUTIVE SHARE TAKEN INTO ACCOUNT BY PARTNER.—

"(A) IN GENERAL.—To the extent that any adjustment under part II involves a change under section 704 in a partner's distributive share of the amount of any partnership item shown on the partnership return, such adjustment shall be taken into account in applying this title to such partner for the partner's taxable year for which such item was required to be taken into account.

"(B) COORDINATION WITH DEFICIENCY PROCEDURES.—

"(i) IN GENERAL.—Subchapter B shall not apply to the assessment or collection of any underpayment of tax attributable to an adjustment referred to in subparagraph (A).

"(ii) ADJUSTMENT NOT PRECLUDED.—Notwithstanding any other law or rule of law, nothing in subchapter B (or in any proceeding under subchapter B) shall preclude the assessment or collection of any underpayment of tax (or the allowance of any credit or refund of any overpayment of tax) attributable to an adjustment referred to in subparagraph (A) and such assessment or collection or allowance (or any notice thereof) shall not preclude any notice, proceeding, or determination under subchapter B.

"(C) PERIOD OF LIMITATIONS.—The period for—

"(i) assessing any underpayment of tax, or

"(ii) filing a claim for credit or refund of any overpayment of tax,

attributable to an adjustment referred to in subparagraph (A) shall not expire before the close of the period prescribed by section 6248 for making adjustments with respect to the partnership taxable year involved.

"(D) TIERED STRUCTURES.—If the partner referred to in subparagraph (A) is another partnership or an S corporation, the rules of this paragraph shall also apply to persons holding interests in such partnership or S corporation (as the case may be); except that, if such partner is a large partnership, the adjustment referred to in subparagraph (A) shall be taken into account in the manner provided by section 6242.

"(d) ADDITION TO TAX FOR FAILURE TO COMPLY WITH SECTION.—

"For addition to tax in case of partner's disregard of requirements of this section, see part II of subchapter A of chapter 68.

"SEC. 6242. PROCEDURES FOR TAKING PARTNERSHIP ADJUSTMENTS INTO ACCOUNT.

"(a) ADJUSTMENTS FLOW THROUGH TO PARTNERS FOR YEAR IN WHICH ADJUSTMENT TAKES EFFECT.—

"(1) IN GENERAL.—If any partnership adjustment with respect to any partnership item takes effect (within the meaning of subsection (d)(2)) during any partnership taxable year and if an election under paragraph (2) does not apply to such adjustment, such adjustment shall be taken into account in determining the amount of such item for the partnership taxable year in which such adjustment takes effect. In applying this title to any person who is (directly or indirectly) a partner in such partnership during such partnership taxable year, such adjustment shall be treated as an item actually arising during such taxable year.

"(2) PARTNERSHIP LIABLE IN CERTAIN CASES.—If—

"(A) a partnership elects under this paragraph to not take an adjustment into account under paragraph (1),

"(B) a partnership does not make such an election but in filing its return for any partnership taxable year fails to take fully into account any partnership adjustment as required under paragraph (1), or

"(C) any partnership adjustment involves a reduction in a credit which exceeds the amount of such credit determined for the partnership taxable year in which the adjustment takes effect,

the partnership shall pay to the Secretary an amount determined by applying the rules of subsection (b)(4) to the adjustments not so taken into account and any excess referred to in subparagraph (C).

"(3) OFFSETTING ADJUSTMENTS TAKEN INTO ACCOUNT.—If a partnership adjustment requires another adjustment in a taxable year after the adjusted year and before the partnership taxable year in which such partnership adjustment takes effect, such other adjustment shall be taken into account under this subsection for the partnership taxable year in which such partnership adjustment takes effect.

"(4) COORDINATION WITH PART II.—Amounts taken into account under this subsection for any partnership taxable year shall continue to be treated as adjustments for the adjusted year for purposes of determining whether such amounts may be readjusted under part II.

"(b) PARTNERSHIP LIABLE FOR INTEREST AND PENALTIES.—

"(1) IN GENERAL.—If a partnership adjustment takes effect during any partnership taxable year and such adjustment results in an imputed underpayment for the adjusted year, the partnership—

"(A) shall pay to the Secretary interest computed under paragraph (2), and

"(B) shall be liable for any penalty, addition to tax, or additional amount as provided in paragraph (3).

"(2) DETERMINATION OF AMOUNT OF INTEREST.—The interest computed under this paragraph with respect to any partnership adjustment is the interest which would be determined under chapter 67—

"(A) on the imputed underpayment determined under paragraph (4) with respect to such adjustment, or

"(B) for the period beginning on the day after the return due date for the adjusted year and ending on the return due date for the partnership taxable year in which such adjustment takes effect (or, if earlier, in the case of any adjustment to which subsection (a)(2) applies, the date on which the payment under subsection (a)(2) is made).

Proper adjustments in the amount determined under the preceding sentence shall be made for adjustments required for partnership taxable years after the adjusted year and before the year in which the partnership adjustment takes effect by reason of such partnership adjustment.

"(3) PENALTIES.—A partnership shall be liable for any penalty, addition to tax, or additional amount for which it would have been liable if such partnership had been an individual subject to tax under chapter 1 for the adjusted year and the imputed underpayment determined under paragraph (4) were an actual underpayment (or understatement) for such year.

"(4) IMPUTED UNDERPAYMENT.—For purposes of this subsection, the imputed underpayment determined under this paragraph with respect to any partnership adjustment is the underpayment (if any) which would result—

"(A) by netting all adjustments to items of income, gain, loss, or deduction and—

"(i) if such netting results in a net increase in income, by treating such net increase as an underpayment equal to the amount of such net increase multiplied by the highest rate of tax in effect under section 1 or 11 for the adjusted year, or

"(ii) if such netting results in a net decrease in income, by treating such net decrease as an overpayment equal to such net decrease multiplied by such highest rate, and

"(B) by taking adjustments to credits into account as increases or decreases (whichever is appropriate) in the amount of tax.

For purposes of the preceding sentence, any net decrease in a loss shall be treated as an increase in income and a similar rule shall apply to a net increase in a loss.

"(c) ADMINISTRATIVE PROVISIONS.—

"(1) IN GENERAL.—Any payment required by subsection (a)(2) or (b)(1)(A)—

"(A) shall be assessed and collected in the same manner as if it were a tax imposed by subtitle C, and

"(B) shall be paid on or before the return due date for the partnership taxable year in which the partnership adjustment takes effect.

"(2) INTEREST.—For purposes of determining interest, any payment required by subsection (a)(2) or (b)(1)(A) shall be treated as an underpayment of tax.

"(3) PENALTIES.—

"(A) IN GENERAL.—In the case of any failure by any partnership to pay on the date prescribed therefor any amount required by subsection (a)(2) or (b)(1)(A), there is hereby imposed on such partnership a penalty of 10 percent of the underpayment. For purposes of the preceding sentence, the term 'underpayment' means the excess of any payment required under this section over the amount (if any) paid on or before the date prescribed therefor.

Such notice shall be sufficient if mailed to the partnership at its last known address even if the partnership has terminated its existence.

"(2) FURTHER NOTICES RESTRICTED.—If the Secretary mails a notice of a partnership adjustment to any partnership for any partnership taxable year and the partnership files a petition under section 6247 with respect to such notice, in the absence of a showing of fraud, malfeasance, or misrepresentation of a material fact, the Secretary shall not mail another such notice to such partnership with respect to such taxable year.

"(3) AUTHORITY TO RESCIND NOTICE WITH PARTNERSHIP CONSENT.—The Secretary may, with the consent of the partnership, rescind any notice of a partnership adjustment mailed to such partnership. Any notice so rescinded shall not be treated as a notice of a partnership adjustment, for purposes of this section, section 6246, and section 6247, and the taxpayer shall have no right to bring a proceeding under section 6247 with respect to such notice. Nothing in this subsection shall affect any suspension of the running of any period of limitations during any period during which the rescinded notice was outstanding.

"(a) GENERAL RULE.—Except as otherwise provided in this chapter, no adjustment to any partnership item may be made (and no levy or proceeding in any court for the collection of any amount resulting from such adjustment may be made, begun or prosecuted) before—

"(1) the close of the 90th day after the day on which a notice of a partnership adjustment was mailed to the partnership, and

"(2) if a petition is filed under section 6247 with respect to such notice, the decision of the court has become final.

"(b) PREMATURE ACTION MAY BE ENJOINED.—Notwithstanding section 7421(a), any action which violates subsection (a) may be enjoined in the proper court, including the Tax Court. The Tax Court shall have no jurisdiction to enjoin any action under this subsection unless a timely petition has been filed under section 6247 and then only in respect of the adjustments that are the subject of such petition.

"(c) EXCEPTIONS TO RESTRICTIONS ON ADJUSTMENTS.—

"(1) ADJUSTMENTS ARISING OUT OF MATH OR CLERICAL ERRORS.—

"(A) IN GENERAL.—If the partnership is notified that, on account of a mathematical or clerical error appearing on the partnership return, an adjustment to a partnership item is required, rules similar to the rules of paragraphs (1) and (2) of section 6213(b) shall apply to such adjustment.

"(B) SPECIAL RULE.—If a large partnership is a partner in another large partnership, any adjustment on account of such partnership's failure to comply with the requirements of section 6241(a) with respect to its interest in such other partnership shall be treated as an adjustment referred to in subparagraph (A), except that paragraph (2) of section 6213(b) shall not apply to such adjustment.

"(2) PARTNERSHIP MAY WAIVE RESTRICTIONS.—The partnership shall at any time (whether or not a notice of partnership adjustment has been issued) have the right, by a signed notice in writing filed with the Secretary, to waive the restrictions provided in subsection (a) on the making of any partnership adjustment.

"(d) LIMIT WHERE NO PROCEEDING BEGUN.—If no proceeding under section 6247 is begun with respect to any notice of a partnership adjustment during the 90-day period described in subsection (a), the amount for which the partnership is liable under section 6242 (and any increase in any partner's liability for tax under chapter 1 by reason of any adjustment under section 6242(a)) shall not exceed the amount determined in accordance with such notice.

(a) IN GENERAL.—Subchapter C of chapter 63 is amended by adding at the end thereof the following new section:

"SEC. 6234. DECLARATORY JUDGMENT RELATING TO TREATMENT OF ITEMS OTHER THAN PARTNERSHIP ITEMS WITH RESPECT TO AN OVERSHELTERED RETURN.

"(a) GENERAL RULE.—If—

"(1) a taxpayer files an oversheltered return for a taxable year,

"(2) the Secretary makes a determination with respect to the treatment of items (other than partnership items) of such taxpayer for such taxable year, and

"(3) the adjustments resulting from such determination do not give rise to a deficiency (as defined in section 6211) but would give rise to a deficiency if there were no net loss from partnership items,

the Secretary is authorized to send a notice of adjustment reflecting such determination to the taxpayer by certified or registered mail.

"(b) OVERSHELTERED RETURN.—For purposes of this section, the term 'oversheltered return' means an income tax return which—

"(1) shows no taxable income for the taxable year, and

"(2) shows a net loss from partnership items.

"(c) JUDICIAL REVIEW IN THE TAX COURT.—Within 90 days, or 150 days if the notice is addressed to a person outside the United States, after the day on which the notice of adjustment authorized in subsection (a) is mailed to the taxpayer, the taxpayer may file a petition with the Tax Court for redetermination of the adjustments. Upon the filing of such a petition, the Tax Court shall have jurisdiction to make a declaration with respect to all items (other than partnership items and affected items which require partner level determinations as described in section 6230(a)(2)(A)(i)) for the taxable year to which the notice of adjustment relates, in accordance with the principles of section 6214(a). Any such declaration shall have the force and effect of a decision of the Tax Court and shall be reviewable as such.

"(d) FAILURE TO FILE PETITION.—

"(1) IN GENERAL.—Except as provided in paragraph (2), if the taxpayer does not file a petition with the Tax Court within the time prescribed in subsection (c), the determination of the Secretary set forth in the notice of adjustment that was mailed to the taxpayer shall be deemed to be correct.

"(2) EXCEPTION.—Paragraph (1) shall not apply after the date that the taxpayer—

"(A) files a petition with the Tax Court within the time prescribed in subsection (c) with respect to a subsequent notice of adjustment relating to the same taxable year, or

"(B) files a claim for refund of an overpayment of tax under section 6511 for the taxable year involved.

If a claim for refund is filed by the taxpayer, then solely for purposes of determining (for the taxable year involved) the amount of any computational adjustment in connection with a partnership proceeding under this subchapter (other than under this section) or the amount of any deficiency attributable to affected items in a proceeding under section 6230(a)(2), the items that are the subject of the notice of adjustment shall be presumed to have been correctly reported on the taxpayer's return during the pendency of the refund claim (and, if within the time prescribed by section 6532 the taxpayer commences a civil action for refund under section 7422, until the decision in the refund action becomes final).

"(e) LIMITATIONS PERIOD.—

"(1) IN GENERAL.—Any notice to a taxpayer under subsection (a) shall be mailed before the expiration of the period prescribed by section 6501 (relating to the period of limitations on assessment).

"(2) SUSPENSION WHEN SECRETARY MAILS NOTICE OF ADJUSTMENT.—If the Secretary mails a notice of adjustment to the taxpayer for a taxable year, the period of limitations on the making of assessments shall be suspended for the period during which the Secretary is prohibited from making the assessment (and, in any event, if a proceeding in respect of the notice of adjustment is placed on the docket of the Tax Court, until the decision of the Tax Court becomes final), and for 60 days thereafter.

"(3) RESTRICTIONS ON ASSESSMENT.—Except as otherwise provided in section 6851, 6852, or 6861, no assessment of a deficiency with respect to any tax imposed by subtitle A attributable to any item (other than a partnership item or any item affected by a partnership item) shall be made—

"(A) until the expiration of the applicable 90-day or 150-day period set forth in subsection (c) for filing a petition with the Tax Court, or

"(B) if a petition has been filed with the Tax Court, until the decision of the Tax Court has become final.

"(f) FURTHER NOTICES OF ADJUSTMENT RESTRICTED.—If the Secretary mails a notice of adjustment to the taxpayer for a taxable year and the taxpayer files a petition with the Tax Court within the time prescribed in subsection (c), the Secretary may not mail another such notice to the taxpayer with respect to the same taxable year in the absence of a showing of fraud, malfeasance, or misrepresentation of a material fact.

"(g) COORDINATION WITH OTHER PROCEEDINGS UNDER THIS SUBCHAPTER.—

"(1) IN GENERAL.—The treatment of any item that has been determined pursuant to subsection (c) or (d) shall be taken into account in determining the amount of any computational adjustment that is made in connection with a partnership proceeding under this subchapter (other than under this section), or the amount of any deficiency attributable to affected items in a proceeding under section 6230(a)(2), for the taxable year involved. Notwithstanding any other law or rule of law pertaining to the period of limitations on the making of assessments, for purposes of the preceding sentence, any adjustment made in accordance with this section shall be taken into account regardless of whether any assessment has been made with respect to such adjustment.

"(2) SPECIAL RULE IN CASE OF COMPUTATIONAL ADJUSTMENT.—In the case of a computational adjustment that is made in connection with a partnership proceeding under this subchapter (other than under this section), the provisions of paragraph (1) shall apply only if the computational adjustment is made within the period prescribed by section 6229 for assessing any tax under subtitle A which is attributable to any partnership item or affected item for the taxable year involved.

"(A) after the notice referred to in subsection (a) is mailed to a taxpayer for a taxable year but before the expiration of the period for filing a petition with the Tax Court under subsection (c) (or, if a petition is filed with the Tax Court, before the Tax Court makes a declaration for that taxable year), the treatment of any partnership item for the taxable year is finally determined, or any such item ceases to be a partnership item pursuant to section 6231(b), and

"(B) as a result of that final determination or cessation, a deficiency can be determined with

respect to the items that are the subject of the notice of adjustment,

the notice of adjustment shall be treated as a notice of deficiency under section 6212 and any petition filed in respect of the notice shall be treated as an action brought under section 6213.

"(4) FINALLY DETERMINED.—For purposes of this subsection, the treatment of partnership items shall be treated as finally determined if—

"(A) the Secretary enters into a settlement agreement (within the meaning of section 6224) with the taxpayer regarding such items,

"(B) a notice of final partnership administrative adjustment has been issued and—

"(i) no petition has been filed under section 6226 and the time for doing so has expired, or

"(ii) a petition has been filed under section 6226 and the decision of the court has become final, or

"(C) the period within which any tax attributable to such items may be assessed against the taxpayer has expired.

"(h) SPECIAL RULES IF SECRETARY INCORRECTLY DETERMINES APPLICABLE PROCEDURE.—

"(1) SPECIAL RULE IF SECRETARY ERRONEOUSLY MAILS NOTICE OF ADJUSTMENT.—If the Secretary erroneously determines that subchapter B does not apply to a taxable year of a taxpayer and consistent with that determination timely mails a notice of adjustment to the taxpayer pursuant to subsection (a) of this section, the notice of adjustment shall be treated as a notice of deficiency under section 6212 and any petition that is filed in respect of the notice shall be treated as an action brought under section 6213.

"(2) SPECIAL RULE IF SECRETARY ERRONEOUSLY MAILS NOTICE OF DEFICIENCY.—If the Secretary erroneously determines that subchapter B applies to a taxable year of a taxpayer and consistent with that determination timely mails a notice of deficiency to the taxpayer pursuant to section 6212, the notice of deficiency shall be treated as a notice of adjustment under subsection (a) and any petition that is filed in respect of the notice shall be treated as an action brought under subsection (c)."

"(2) DETERMINATION THAT SUBCHAPTER DOES NOT APPLY.—If, on the basis of a partnership return for a taxable year, the Secretary reasonably determines that this subchapter does not apply to such partnership for such year but such determination is erroneous, then the provisions of this subchapter shall not apply to such partnership (and its items) for such taxable year or to partners of such partnership."

"(2) TREATMENT WHERE STOCK BECOMES MARKETABLE.—If any stock in a passive foreign corporation becomes marketable stock after the beginning of the taxpayer's holding period in such stock, and if the requirements of paragraph (1)(B) are not satisfied, section 1293 shall apply to—

"(A) any distributions with respect to, or disposition of, such stock in the taxable year of the taxpayer in which it becomes so marketable, and

"(B) any amount which, but for section 1293, would have been included in gross income under section 1291(a) with respect to such stock for such taxable year in the same manner as if such amount were gain on the disposition of such stock.

"(ii) POST-1986 EARNINGS AND PROFITS.—For purposes of clause (i), the term 'post-1986 earnings and profits' means earnings and profits which were accumulated in taxable years of the corporation beginning after December 31, 1986, and during the period or periods the stock was held by the taxpayer while the corporation was a passive foreign corporation.

PART II—AMERICAN CITIZENS ANNUAL REPORT

SEC. 7918. AMERICAN CITIZENS ANNUAL REPORT ACT.

(a) FINDINGS AND PURPOSES.—

(1) FINDINGS.—The Congress makes the following findings:

(A) Publicly owned corporations provide shareholders with an annual report on the financial status of the corporation.

(B) Americans are entitled to an annual report on the financial status of the Federal Government, as all citizens share an interest in the financial well-being of our Federal Government. Accurate, consistent, and broadly distributed reporting on the Nation's finances are central to the conduct of democracy.

(C) Recent Federal budget deficits have resulted in more than a tripling of the Federal debt. With prospects for enormous Federal budget deficits for the next several years, the debt is a burden that affects the present and future generations of Americans.

(D) The actual financial performance of the Federal Government often differs from the budget by tens, even hundreds, of billions of dollars. For example, the fiscal year 1991 budget was to result in a deficit of $63,000,000,000. Instead, the actual deficit for the year was $268,700,000,000.

(E) The Chief Financial Officers Act is leading agencies to develop reliable and relevant financial information that is to be useful to the public, including audited financial statements.

(F) The Federal Government continues to lose billions of dollars each year through fraud, *waste, abuse, and mismanagement. Standardized reporting to the public is essential to the improvement of accountability of public programs.*

(G) The growing Federal debt is hindering economic growth and competitiveness, and ultimately, reduces the standard of living of all Americans.

(2) PURPOSES.—The purposes of this section are to—

(A) provide the American taxpayer with an annual report on the financial status of the Federal Government;

(B) increase the participation and awareness of the public in finding solutions to the Federal Government's budget problems;

(C) require the President, Congressional leaders, and the chief financial officers of the Government to report to the public on the well-being of the Federal Government's finances as a part of their fiduciary responsibilities; and

(D) bring a public focus to efforts already underway that seek to develop and improve financial standards, annual reporting, and systems in the agencies of the Federal Government.

(b) ANNUAL REPORT.—Section 3513 of title 31, United States Code, is amended by adding at the end thereof the following:

"(d)(1) The Secretary of the Treasury shall prepare an annual report (referred to in this subsection as the 'annual report') containing—

"(A) the most recent 5-year actual trends in Federal receipts, expenditures, fund balances, assets and liabilities, and debts by major category or source, along with a brief description of those trends for the most recent year;

"(B) a comparison of the actual Federal spending and revenues by major category or source for the most recent fiscal year—

"(i) to the budget request estimates as submitted by the President for that year; and

"(ii) to the enacted budget,

along with notes explaining differences;

"(C) statements from the President, the Majority Leader of the Senate, and the Speaker of the House of Representatives regarding significant aspects of the Government's financial performance; and

"(D) any other relevant information on the Government's performance and contributions to economic growth, productivity, and investment in infrastructure recommended for inclusion by the advisory committee and deemed appropriate by the Director of the Office of Management and Budget.

"(2)(A) Preparation and content of the annual report shall be supervised and directed by the Director of the Office of Management and Budget.

"(B) There is established an advisory committee to provide the Director of the Office of Management and Budget with comments and suggestions on the design and content of the annual report. The advisory committee shall consist of 9 members as follows:

"(i) 3 members to be appointed by the President.

"(ii) 2 members to be appointed by the Majority Leader of the Senate.

"(iii) 1 member to be appointed by the Minority Leader of the Senate.

"(iv) 2 members to be appointed by the Speaker of the House of Representatives.

"(v) 1 member to be appointed by the Minority Leader of the House of Representatives.

"(3) The annual report shall contain a statement of assurance by the Director of the Office of Management and Budget and an audit opinion the Comptroller General attesting to the reliability and relevancy accuracy of the information contained in the annual report.

"(4) The annual report shall be prepared annually in a timely fashion after the close of each fiscal year. If the final annual report for a fiscal year is not available within 3 calendar months after the close of that fiscal year, a preliminary annual report shall be prepared and published within that period containing substantially all the material described in subparagraphs (A) and (B) of paragraph (1) and the final annual report shall be prepared and published as soon as possible thereafter.

"(5)(A) In the case of any booklet of instructions for Form 1040, 1040A, or 1040EZ prepared by the Secretary for filing individual income tax returns for taxable years beginning in any calendar year, the Secretary shall include on the front inside cover of such booklet of instructions (in addition to the information required in subsection (a) of section 7523 of the Internal Revenue Code of 1986)—

"(i) a summary of the annual report prepared by the Director, and

"(ii) the procedures for obtaining a copy of such annual report.

"(B) The summary referred to in subparagraph (A) shall—

"(i) include the cumulative Federal debt at the end of each of the 10 preceding fiscal years expressed in total dollars and in dollars per capita; and

"(ii) be presented in a manner that is easily comprehensible to a taxpayer.

(B) the United States, Mexico, and Canada have recently negotiated a North American Free Trade Agreement;

(C) a freer trade environment may improve the economies of Mexico and Latin American and Caribbean countries and in turn remove incentives for illegal immigration into the United States;

(D) the congressionally appointed Commission for the Study of International Migration and Cooperative Economic Development has recommended that the United States promote economic growth in Mexico, South and Central America, Canada, and the Caribbean, because the Commission believes such growth will decrease illegal immigration into the United States from these regions;

(F) solid economic relationships between the United States and other Western Hemisphere countries involve complex issues which require continuing detailed study and discussion;

(G) the economic interdependency of Western Hemisphere countries requires that a center be established in the southern United States to promote better trade and economic relations among the nations of the Western Hemisphere; and

(H) such a center should be established in the State of Texas because that State is a primary bridge through which Latin America does business with the United States.

(2) PURPOSES.—The purposes of this section are to—

(A) establish a center devoted to studying and supporting better economic relations among Western Hemisphere countries;

(B) give the center responsibility for studying the short- and long-term implications of freer trade and more liberalized economic relations among countries from North and South America, and from the Caribbean Basin; and

In selecting the appropriate institution of higher education, the Commissioner of Customs shall give consideration to—

"(f) FEES FOR SEMINARS AND PUBLICATIONS.—Notwithstanding any other provision of law, a grant made under this section may provide that the Center may charge a reasonable fee for attendance at seminars and conferences and for copies of publications, studies, reports, and other documents the Center publishes. The Center may waive such fees in any case in which it determines imposing a fee would impose a financial hardship and the purposes of the Center would be served by granting such a waiver.

"(g) DURATION OF GRANT.—The Commissioner of Customs is directed to make grants to any institution or institutions selected as the Center for fiscal years 1994, 1995, 1996, and 1997.

(a) AMENDMENT.—Section 499 (19 U.S.C. 1499) is amended to read as follows:

"SEC. 499. EXAMINATION OF MERCHANDISE.

"(a) ENTRY EXAMINATION.—

"(1) IN GENERAL.—Imported merchandise that is required by law or regulation to be inspected, examined, or appraised shall not be delivered from customs custody (except under such bond or other security as may be prescribed by the Secretary to assure compliance with all applicable laws, regulations, and instructions which the Secretary or the Customs Service is authorized to enforce) until the merchandise has been inspected, appraised, or examined and is reported by the Customs Service to have been truly and correctly invoiced and found to com-

ply with the requirements of the laws of the United States.

"(2) EXAMINATION.—The Customs Service—

"(A) shall designate the packages or quantities of merchandise covered by any invoice or entry which are to be opened and examined for the purpose of appraisement or otherwise;

"(B) shall order such packages or quantities to be sent to such place as is designated by the Secretary by regulation for such purpose;

"(C) may require such additional packages or quantities as the Secretary considers necessary for such purpose; and

"(D) shall inspect a sufficient number of shipments, and shall examine a sufficient number of entries, to ensure compliance with the laws enforced by the Customs Service.

"(3) UNSPECIFIED ARTICLES.—If any package contains any article not specified in the invoice or entry and, in the opinion of the Customs Service, the article was omitted from the invoice or entry—

"(A) with fraudulent intent on the part of the seller, shipper, owner, agent, importer of record, or entry filer, the contents of the entire package in which such article is found shall be subject to seizure; or

"(B) without fraudulent intent, the value of the article shall be added to the entry and the duties, fees, and taxes thereon paid accordingly.

"(4) DEFICIENCY.—If a deficiency is found in quantity, weight, or measure in the examination of any package, the person finding the deficiency shall make a report thereof to the Customs Service. The Customs Service shall make allowance for the deficiency in the liquidation of duties.

"(5) INFORMATION REQUIRED FOR RELEASE.—If an examination is conducted, any information required for release shall be provided, either electronically or in paper form, to the Customs Service at the port of examination. The absence of such information does not limit the authority of the Customs Service to conduct an examination.

"(b) TESTING LABORATORIES.—

"(1) ACCREDITATION OF PRIVATE TESTING LABORATORIES.—The Customs Service shall establish and implement a procedure, under regulations promulgated by the Secretary, for accrediting private laboratories within the United States which may be used to perform tests (that would otherwise be performed by Customs Service laboratories) to establish the characteristics, quantities, or composition of imported merchandise. Such regulations—

"(A) shall establish the conditions required for the laboratories to receive and maintain accreditation for purposes of this subsection;

"(B) shall establish the conditions regarding the suspension and revocation of accreditation, which may include the imposition of a monetary penalty not to exceed $100,000 and such penalty is in addition to the recovery, from a gauger or laboratory accredited under paragraph (1), of any loss of revenue that may have occurred, but the Customs Service—

"(i) may seek to recover lost revenue only in cases where the gauger or laboratory intentionally falsified the analysis or gauging report in collusion with the importer; and

"(ii) shall neither assess penalties nor seek to recover lost revenue because of a good faith difference of professional opinion; and

"(C) may provide for the imposition of a reasonable charge for accreditation and periodic reaccreditation.

The collection of any charge for accreditation and reaccreditation under this section is not prohibited by section 13031(e)(6) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(e)(6)).

"(2) APPEAL OF ADVERSE ACCREDITATION DECISIONS.—A laboratory applying for accreditation, or that is accredited, under this section may contest any decision or order of the Customs Service denying, suspending, or revoking accreditation, or imposing a monetary penalty, by commencing an action in accordance with chapter 169 of title 28, United States Code, in the Court of International Trade within 60 days after issuance of the decision or order.

"(3) TESTING BY ACCREDITED LABORATORIES.—When requested by an importer of record of merchandise, the Customs Service shall authorize the release to the importer of a representative sample of the merchandise for testing, at the expense of the importer, by a laboratory accredited under paragraph (1). The testing results from a laboratory accredited under paragraph (1) that are submitted by an importer of record with respect to merchandise in an entry shall, in the absence of testing results obtained from a Customs Service laboratory, be accepted by the Customs Service if the importer of record certifies that the sample tested was taken from the merchandise in the entry. Nothing in this subsection shall be construed to limit in any way or preclude the authority of the Customs Service to test or analyze any sample or merchandise independently.

"(4) AVAILABILITY OF TESTING PROCEDURE, METHODOLOGIES, AND INFORMATION.—Testing procedures and methodologies used by the Customs Service, and information resulting from any testing conducted by the Customs Service, shall be made available as follows:

"(A) Testing procedures and methodologies shall be made available upon request to any person unless the procedures or methodologies are—

"(i) proprietary to the holder of a copyright or patent related to such procedures or methodologies, or

"(ii) developed by the Customs Service for enforcement purposes.

"(B) Information resulting from testing shall be made available upon request to the importer of record and any agent thereof unless the information—

"(i) is proprietary to the holder of a copyright or patent related to the procedures or methodologies; or

"(ii) reveals information developed by the Customs Service for enforcement purposes.

"(5) MISCELLANEOUS PROVISIONS.—For purposes of this subsection—

"(A) any reference to a private laboratory includes a reference to a private gauger; and

"(B) accreditation of private laboratories extends only to the performance of functions by such laboratories that are within the scope of those responsibilities for determinations of the elements relating to admissibility, quantity, composition, or characteristics of imported merchandise that are vested in, or delegated to, the Customs Service.

"(c) DETENTIONS.—Except in the case of merchandise with respect to which the determination of admissibility is vested in an agency other than the Customs Service, the following apply:

"(1) IN GENERAL.—Within the 5-day period (excluding weekends and holidays) following the date on which merchandise is presented for customs examination, the Customs Service shall decide whether to release or detain the merchandise. Merchandise which is not released within such 5-day period shall be considered to be detained merchandise.

"(2) NOTICE OF DETENTION.—The Customs Service shall issue a notice to the importer or other party having an interest in detained merchandise no later than 5 days, excluding weekends and holidays, after the decision to detain the merchandise is made. The notice shall advise the importer or other interested party of—

"(A) the initiation of the detention;

"(B) the specific reason for the detention;

"(C) the anticipated length of the detention;

"(D) the nature of the tests or inquiries to be conducted; and

"(E) the nature of any information which, if supplied to the Customs Service, may accelerate the disposition of the detention.

"(3) TESTING RESULTS.—Upon request by the importer or other party having an interest in detained merchandise, the Customs Service shall provide the party with copies of the results of any testing conducted by the Customs Service on the merchandise and a description of the testing procedures and methodologies (unless such procedures or methodologies are proprietary to the holder of a copyright or patent or were developed by the Customs Service for enforcement purposes). The results and test description shall be in sufficient detail to permit the duplication and analysis of the testing and the results.

"(4) SEIZURE AND FORFEITURE.—If otherwise provided by law, detained merchandise may be seized and forfeited.

"(5) EFFECT OF FAILURE TO MAKE DETERMINATION.—

"(A) The failure by the Customs Service to make a final determination with respect to the admissibility of detained merchandise within 30 days after the merchandise has been presented for customs examination, or such longer period if specifically authorized by law, shall be treated as a decision of the Customs Service to exclude the merchandise for purposes of section 514(a)(4).

"(B) For purposes of section 1581 of title 28, United States Code, a protest against the decision to exclude the merchandise which has not been allowed or denied in whole or in part before the 30th day after the day on which the protest was filed shall be treated as having been denied on such 30th day.

"(C) Notwithstanding section 2639 of title 28, United States Code, once an action respecting a detention is commenced, unless the Customs Service establishes by a preponderance of the evidence that an admissibility decision has not been reached for good cause, the court shall grant the appropriate relief which may include, but is not limited to, an order to cancel the detention and release the merchandise.".

(b) EXISTING LABORATORIES.—Accreditation under section 499(b) of the Tariff Act of 1930 (as added by subsection (a)) is not required for any private laboratory (including any gauger) that was accredited or approved by the Customs Service as of the day before the date of the enactment of this Act; but any such laboratory is subject to reaccreditation under the provisions of such section and the regulations promulgated thereunder.

(a) AMENDMENT.—Part V of title IV is amended by inserting after section 593 the following new section:

"SEC. 593A. PENALTIES FOR FALSE DRAWBACK CLAIMS.

"(a) PROHIBITION.—

"(1) GENERAL RULE.—No person, by fraud, or negligence—

"(A) may seek, induce or affect, or attempt to seek, induce, or affect, the payment or credit to that person or others of any drawback claim by means of—

"(i) any document, written or oral statement, or electronically transmitted data or information, or act which is material and false, or

"(ii) any omission which is material; or

"(B) may aid or abet any other person to violate subparagraph (A).

"(2) EXCEPTION.—Clerical errors or mistakes of fact are not violations of paragraph (1) unless they are part of a pattern of negligent conduct. The mere nonintentional repetition by an electronic system of an initial clerical error does not constitute a pattern of negligent conduct.

"(b) PROCEDURES.—

"(1) PREPENALTY NOTICE.—

"(A) IN GENERAL.—If the Customs Service has reasonable cause to believe that there has been a violation of subsection (a) and determines that further proceedings are warranted, the Customs Service shall issue to the person concerned a written notice of intent to issue a claim for a monetary penalty. Such notice shall—

"(i) identify the drawback claim;

"(ii) set forth the details relating to the seeking, inducing, or affecting, or the attempted seeking, inducing, or affecting, or the aiding or procuring of, the drawback claim;

"(iii) specify all laws and regulations allegedly violated;

"(iv) disclose all the material facts which establish the alleged violation;

"(v) state whether the alleged violation occurred as a result of fraud or negligence;

"(vi) state the estimated actual or potential loss of revenue due to the drawback claim, and, taking into account all circumstances, the amount of the proposed monetary penalty; and

"(vii) inform such person that he shall have a reasonable opportunity to make representations, both oral and written, as to why a claim for a monetary penalty should not be issued in the amount stated.

"(B) EXCEPTIONS.—The Customs Service may not issue a prepenalty notice if the amount of the penalty in the penalty claim issued under paragraph (2) is $1,000 or less. In such cases, the Customs Service may proceed directly with a penalty claim.

"(C) PRIOR APPROVAL.—No prepenalty notice in which the alleged violation occurred as a result of fraud shall be issued without the prior approval of Customs Headquarters.

"(2) PENALTY CLAIM.—After considering representations, if any, made by the person concerned pursuant to the notice issued under paragraph (1), the Customs Service shall determine whether any violation of subsection (a), as alleged in the notice, has occurred. If the Customs Service determines that there was no violation, the Customs Service shall promptly issue a written statement of the determination to the person to whom the notice was sent. If the Customs Service determines that there was a violation, Customs shall issue a written penalty claim to such person. The written penalty claim shall specify all changes in the information provided under clauses (i) through (vii) of paragraph (1)(A). Such person shall have a reasonable opportunity under section 618 to make representations, both oral and written, seeking remission or mitigation of the monetary penalty. At the conclusion of any proceeding under section 618, the Customs Service shall provide to the person concerned a written statement which sets forth the final determination, and the findings of fact and conclusions of law on which such determination is based.

"(c) MAXIMUM PENALTIES.—

"(1) FRAUD.—A fraudulent violation of subsection (a) of this section is punishable by a civil penalty in an amount not to exceed 3 times the actual or potential loss of revenue.

"(2) NEGLIGENCE.—

"(A) IN GENERAL.—A negligent violation of subsection (a) is punishable by a civil penalty in an amount not to exceed 20 percent of the actual or potential loss of revenue for the 1st violation.

"(B) REPETITIVE VIOLATIONS.—If the Customs Service determines that a repeat negligent violation occurs relating to the same issue, the penalty amount for the 2d violation shall be in an amount not to exceed 50 percent of the total actual or potential loss of revenue. The penalty amount for each succeeding repetitive negligent violation shall be in an amount not to exceed the actual or potential loss of revenue. If the same party commits a nonrepetitive violation, that violation shall be subject to a penalty not to exceed 20 percent of the actual or potential loss of revenue.

"(3) PRIOR DISCLOSURE.—

"(A) IN GENERAL.—Subject to subparagraph (B), if the person concerned discloses the circumstances of a violation of subsection (a) before, or without knowledge of the commencement of, a formal investigation of such violation, the monetary penalty assessed under this subsection may not exceed—

"(i) if the violation resulted from fraud, an amount equal to the actual or potential revenue of which the United States is or may be deprived as a result of overpayment of the claim; or

"(ii) if the violation resulted from negligence, an amount equal to the interest computed on the basis of the prevailing rate of interest applied under section 6621 of the Internal Revenue Code of 1986 on the amount of actual revenue of which the United States is or may be deprived during the period that—

"(I) begins on the date of the overpayment of the claim; and

"(II) ends on the date on which the person concerned tenders the amount of the overpayment.

"(B) CONDITION AFFECTING PENALTY LIMITATIONS.—The limitations in subparagraph (A) on the amount of the monetary penalty to be assessed under subsection (c) apply only if the person concerned tenders the amount of the overpayment made on the claim at the time of disclosure, or within 30 days (or such longer period as the Customs Service may provide), after notice by the Customs Service of its calculation of the amount of the overpayment.

"(C) BURDEN OF PROOF.—The person asserting lack of knowledge of the commencement of a formal investigation has the burden of proof in establishing such lack of knowledge.

"(4) COMMENCEMENT OF INVESTIGATION.—For purposes of this section, a formal investigation of a violation is considered to be commenced with regard to the disclosing party and the disclosed information on the date recorded in writing by the Customs Service as the date on which facts and circumstances were discovered or information was received which caused the Customs Service to believe that a possibility of a violation of subsection (a) existed.

"(5) EXCLUSIVITY.—Penalty claims under this section shall be the exclusive civil remedy for any drawback related violation of subsection (a).

"(d) DEPRIVATION OF LAWFUL REVENUE.—Notwithstanding section 514, if the United States has been deprived of lawful duties and taxes resulting from a violation of subsection (a), the Customs Service shall require that such drawback claim be restored whether or not a monetary penalty is assessed.

"(e) DRAWBACK COMPLIANCE PROGRAM.—

"(1) IN GENERAL.—After consultation with the drawback trade community, the Customs Service shall establish a drawback compliance program in which claimants and other parties in interest may participate after being certified by the Customs Service under paragraph (2). Participation in the drawback compliance program is voluntary.

"(2) CERTIFICATION.—A party may be certified as a participant in the drawback compliance program after meeting the general requirements established under the program or after negotiating an alternative program suited to the needs of the party and the Customs Service. Certification requirements shall take into account the size and nature of the party's drawback program and the volume of claims. In order to be certified, the participant must be able to demonstrate that it—

"(A) understands the legal requirements for filing claims, including the nature of the records required to be maintained and produced and the time periods involved;

"(F) has procedures for notifying the Customs Service of variances to, and violations of, the requirements of the drawback compliance program or any negotiated alternative programs, and for taking corrective action when notified by the Customs Service for violations or problems regarding such program.

"(f) ALTERNATIVES TO PENALTIES.—

"(1) IN GENERAL.—When a party that—

"(A) has been certified as a participant in the drawback compliance program under subsection (e); and

"(B) is generally in compliance with the appropriate procedures and requirements of the program;

commits a violation of subsection (a), the Customs Service, shall, in the absence of fraud or repeated violations, and in lieu of a monetary penalty, issue a written notice of the violation to the party. Repeated violations by a party may result in the issuance of penalties and removal of certification under the program until corrective action, satisfactory to the Customs Service, is taken.

"(2) CONTENTS OF NOTICE.—A notice of violation issued under paragraph (1) shall—

"(A) state that the party has violated subsection (a);

"(B) explain the nature of the violation; and

"(C) warn the party that future violations of subsection (a) may result in the imposition of monetary penalties.

"(3) RESPONSE TO NOTICE.—Within a reasonable time after receiving written notice under paragraph (1), the party shall notify the Customs Service of the steps it has taken to prevent a recurrence of the violation.

"(g) REPETITIVE VIOLATIONS.—

"(1) A party who has been issued a written notice under subsection (f)(1) and subsequently commits a repeat negligent violation involving the same issue is subject to the following monetary penalties:

"(h) REGULATION.—The Secretary shall promulgate regulations and guidelines to implement this section. Such regulations shall specify that for purposes of subsection (g), a repeat negligent violation involving the same issue shall be treated as a repetitive violation for a maximum period of 3 years.

"(i) COURT OF INTERNATIONAL TRADE PROCEEDINGS.—Notwithstanding any other provision of law, in any proceeding commenced by the United States in the Court of International Trade for the recovery of any monetary penalty claimed under this section—

"(1) all issues, including the amount of the penalty, shall be tried de novo;

"(2) if the monetary penalty is based on fraud, the United States shall have the burden of proof to establish the alleged violation by clear and convincing evidence; and

"(3) if the monetary penalty is based on negligence, the United States shall have the burden of proof to establish the act or omission constituting the violation, and the alleged violator shall have the burden of providing evidence that the act or omission did not occur as a result of negligence.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies to drawback claims filed on and after the nationwide operational implementation of an automated drawback selectivity program by the Customs Service. The Customs Service shall publish notice of this date in the Customs Bulletin.
